

## Answer the call of the past

Discover our heritage and trace the history of telecommunications in the BT Archives

We've been with Britain from the Industrial Revolution, through to the smartphone revolution. These archives tell our story.

Our story begins in 1846 with the world's first telegraph company and continues with BT today.

Go online to explore a unique collection of business records, research reports, adverts, films, photos and phone books. Or make an appointment to visit us in-person.
