

LRQA independent assurance statement

Relating to BT Group plc's 'Delivering our Purpose – update on our progress 2017/18' Report for the financial year ending 31st March 2018

This Assurance Statement has been prepared for BT Group plc in accordance with our contract but is intended for the readers of this Report.

Terms of engagement

Lloyd's Register Quality Assurance (LRQA) was commissioned by BT Group plc (BT) to provide independent assurance on its 'Delivering our Purpose – update on our progress 2017/18' Report ("the report") to a high level of assurance using AccountAbility's AA1000 Assurance Standard 2008 (AA1000AS).

Our assurance engagement covered BT's worldwide operations and activities and specifically the following requirements:

- Reviewing adherence to AA1000AS's Accountability Principles of Inclusivity, Materiality and Responsiveness and evaluating the reliability of the specified sustainability performance information (Type 2 engagement).
- Verifying Greenhouse Gas emissions data related to BT's Carbon Disclosure Project submission, including Direct (Scope 1), Energy Indirect (Scope 2), and Other Indirect (Scope 3).

Our terms excluded data and information:

- Accessed through links that take the reader out of the report, including video streams
- Presented by BT but originated from a second party. Here LRQA corroborate only that data and information was transcribed accurately and the correct reference was provided
- Communicated via social networks
- Included in BT's indexes for United Nations Global Compact, ISO 26000:2010 and Global Reporting Initiative.

LRQA's responsibility is only to BT. LRQA disclaims any liability or responsibility to others as explained in the end footnote. BT's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of BT.

LRQA's Opinion

Based on LRQA's approach, we believe that BT has, in all material respects:

- Met the requirements above
- Disclosed accurate and reliable performance data and information
- Covered all the issues that are important to the stakeholders and readers of this report.

The opinion expressed is formed on the basis of a high level of assurance and at the materiality of the professional judgement of the verifier.

LRQA's approach

LRQA's assurance engagements are carried out in accordance with our verification procedure. The following tasks though were undertaken as part of the evidence gathering process for this assurance engagement:

- Assessing BT's approach to stakeholder engagement to confirm that issues raised by stakeholders were captured correctly. We did this through reviewing minutes of meetings and reviewing associated documents and records.
- Reviewing BT's process for identifying and determining material issues to confirm that the right issues were included in their report. We did this by benchmarking reports written by BT and its peers to ensure that sector specific issues were included for comparability. We also tested the filters used in determining material issues to evaluate whether BT makes informed business decisions that may create opportunities that contribute towards sustainable development.
- Auditing BT's data management systems to confirm that there were no significant errors, omissions or mis-statements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification. We also spoke with those key people responsible for compiling the data and drafting the report.

LRQA independent assurance statement continued

- Reviewing BT’s Internal Audit Division’s (IAD)^a process and evidence files to confirm that their internal verification was performed thoroughly. IAD checked the validity of data and information in the following sections of the report:
 - Being purposeful: Our business
 - Being responsible: Overview and highlights, Doing business ethically, Respecting human rights and Investing in our people.

Observations

Further observations and findings, made during the assurance engagement, are:

- **Stakeholder inclusivity:** We are not aware of any key stakeholder groups that have been excluded from BT’s stakeholder engagement process. BT demonstrated that they have incorporated these stakeholder concerns into their management approach and decision-making processes in order to develop a structured engagement approach and response to sustainability issues.
- **Materiality:** We are not aware of any material issues concerning BT’s sustainability performance that have been excluded from the report. It should be noted that BT has established extensive criteria for determining which issue is material and that these criteria are not biased to the company’s management. BT present material aspect performance in relation to the broader concepts of sustainability and the aspect boundaries appropriately reflect the material economic, environmental and social impacts.
- **Responsiveness:** BT has processes in place to respond to its stakeholders especially government authorities, employees and the public, partners and suppliers, shareholders and investors.
- **Reliability:** Data management systems are considered to be well defined and implemented. BT have acted upon the recommendations made by LRQA in 2017. However, work should continue to improve the data from MBNL Ltd, particularly with regards to that related to refrigerants.

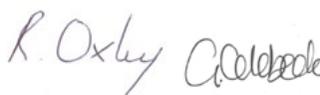

LRQA’s standards, competence and independence

LRQA ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

LRQA is BT’s certification body for ISO 9001, ISO 14001, ISO 27001, ISO 22301, ISO 20000-1 and OHSAS 18001. We also provide BT with a range of related training services and supply chain assessments. The verification and certification assessments, together with the training and supply chain assessments, are the only work undertaken by LRQA for BT and as such does not compromise our independence or impartiality.
