The €500,000,000 Capital Securities due 2080 (the “Securities”) will be issued by British Telecommunications public limited company (the “Issuer”) on 18 February 2020 (the “Issue Date”) and guaranteed on a subordinated basis as described herein by BT Group plc (the “Guarantor” and the “Guarantor” respectively). The Securities will bear interest on their principal amount from (and including) the Issue Date to (but excluding) 18 August 2020 (the “Maturity Date”). From and including the Issue Date to (but excluding) 18 August 2021 (the “First Reset Date”) the Securities will bear interest on their principal amount at a rate of 5.875 per cent. per annum, payable annually in arrear on 18 August in each year. The first payment of interest, to be made on 18 August 2020, will be in respect of the principal from (and including) the Issue Date to (but excluding) 18 August 2020. Thereafter, unless previously redeemed, the Securities will bear interest from (and including) the First Reset Date to (but excluding) the First Reset Date as (defined in the Conditions), payable annually in arrear on 18 August in each year. From and including the First Reset Date to (but excluding) the Second Reset Date the Securities will bear interest at a rate per annum which shall be 2.35 per cent. above the 5-year Swap Rate payable annually in arrear on 18 August in each year, From and including the Second Reset Date to (but excluding) the Maturity Date, the Securities will bear interest at a rate per annum which shall be 3.11 per cent. above the 5-year Swap Rate payable annually in arrear on 18 August in each year, all as more particularly described in “Terms and Conditions of the Securities — Interest Payment.” The Guarantee contains provisions which, for so long as BT Group plc remains Guarantor, permit termination of the Guarantee at the sole discretion of the Issuer or the Guarantor where: (i) the Issuer or the Guarantor has issued a certificate signed by two Directors of the Issuer or the Guarantor certifying that no Event of Default (as defined in the Conditions) is continuing; and (ii) a deed supplemental to the Guarantee has been entered into discharging the Guarantor’s obligations as the guarantor under the Trust Deed.

The Issuer may, at its discretion, elect to declare all or part of any payment of interest on the Securities as more particularly described in “Terms and Conditions of the Securities — Optional Interest Deferral.” Any amounts so deferred, together with further interest accrued thereon (at the interest rate per annum prevailing from time to time), shall constitute Deferral Interest (as defined in the Conditions). The Issuer may pay outstanding Deferral Interest, in whole or in part, at any time in accordance with the Conditions. Notwithstanding this, the Issuer shall pay any outstanding Deferral Interest, in whole but not in part, on the first to occur of (i) the date which is 10 Business Days following the occurrence of a Compulsory Payment Event (as defined in the Conditions), (ii) the next scheduled Interest Payment Date if the Issuer pays interest on the Securities on such date, (iii) the date on which the Securities are redeemed or repaid in accordance with the Conditions, and (iv) the date on which the Securities are substituted for, or the terms of the Securities varied so that they become, Qualifying Securities (as defined in the Conditions), all as more particularly described in “Terms and Conditions of the Securities — Optional Interest Deferral — Mandatory payment of Deferral Interest.”

Unless previously repaid, redeemed, purchased and cancelled or substituted, the Securities will be redeemed on the Maturity Date at their principal amount, together with any accrued and unpaid interest up to (but excluding) such date and any outstanding Deferral Interest. In addition, upon the occurrence of an Accounting Event, a Rating Capital Event, a Substantial Reduction Event, a Tax Deductibility Event or a Withholding Tax Event (each such term as defined in the Conditions), the Securities shall be redeemable (at the option of the Issuer) in whole but not in part at the prices set out, and as more particularly described, in “Terms and Conditions of the Securities — Redemption.”

The Issuer may, upon the occurrence of an Accounting Event, a Rating Capital Event, a Tax Deductibility Event or a Withholding Tax Event, at any time, without the consent of the holders of the Securities, either (i) substitute all, but not some only, of such Securities for, or (ii) vary the terms of each Securities with the effect that they remain or become, as the case may be, Qualifying Securities, in each case in accordance with Condition 8 thereof and subject to Condition 9 of the Conditions.

The Securities will be unsecured securities of the Issuer and will constitute subordinated obligations of the Issuer, all as more particularly described in “Terms and Conditions of the Securities — Rank of the Securities” and “Terms and Conditions of the Securities — Subordination of the Securities.” The obligations of the Guarantor under the Guarantee will be unsecured obligations of the Guarantor and will constitute subordinated obligations of the Guarantor, all as more particularly described in “Terms and Conditions of the Securities — Rank of the Securities” and “Terms and Conditions of the Securities — Subordination of the Guarantor.”

Payments in respect of the Securities shall be made without withholding or deduction for, or on account of, taxes of the United Kingdom, unless such withholding or deduction is required by law. In the event that any such withholding or deduction is made, additional amounts may be payable by the Issuer or, as the case may be, the Guarantor, subject to certain exceptions as are more fully described in “Terms and Conditions of the Securities — Taxation.”

Reference in this Prospectus to Securities being “listed” (and all related references) shall mean that the Securities have been admitted to trading on the Market and have been admitted to the Official List. The Market is a regulated market for the purposes of Directive 2014/65/EU (“MiFID II”) of the European Parliament and of the Council on markets in financial instruments.

This Prospectus has been approved by the FCA, as competent authority under Regulation (EU) 2017/1129 (the “Prospectus Regulation”). The FCA only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as endorsement of the Issuer and the Guarantor or the quality of the Securities that are the subject of this Prospectus. Investors should make their own assessment as to the suitability of investing in the Securities.

The Securities will initially be issued in registered form and represent an open issue by a registered global certificate which will be registered in the register kept by Citigroup Global Markets Europe AG (the “Registrar”) and the Registrar in the name of a nominee for a central depository on behalf of Barclays Bank PLC/S(NY) (“Barclays”) and UBS Europe Securities, S.A. The Securities are expected to be rated B1 by S&P Global Ratings Europe Limited (“Standard & Poor’s”), B3 by Moody’s Investors Service Ltd. (“Moody’s”) and BB- by Fitch Ratings Limited (“Fitch”) (each, a “Rating Agency”). Each of Standard & Poor’s, Moody’s and Fitch is established in the European Union (the “EU”) or the United Kingdom and are registered under Regulation (EC) No. 1060/2009 (as amended) of the European Parliament and Council of 16 September 2009 on credit rating agencies. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Investing in the Securities involves a high degree of risk. Prospective investors should have regard to the factors described under the section headed “Risk Factors” in this Prospectus.
This Prospectus comprises a prospectus for the purposes of Regulation (EU) 2017/1129 (the “Prospectus Regulation”). The Issuer and the Guarantor accept responsibility for the information contained in this Prospectus. To the best of the knowledge of the Issuer and the Guarantor, the information contained in this Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Guarantor and its subsidiaries including the Issuer, taken as a whole, are referred to in this Prospectus as the “Group”.

This Prospectus is to be read in conjunction with all the documents which are incorporated herein by reference (see “Documents Incorporated by Reference”).

This Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer, the Guarantor or the Bookrunners (as defined in “Subscription and Sale” below) to subscribe or purchase, any of the Securities. The distribution of this Prospectus and the offering of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus comes are required by the Issuer, the Guarantor and the Bookrunners to inform themselves about and to observe any such restrictions. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Bookrunners or any parent company or affiliate of the Bookrunners is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Bookrunners or such parent company or affiliate on behalf of the Issuer in such jurisdiction.

For a description of further restrictions on offers and sales of the Securities and distribution of this Prospectus, see “Subscription and Sale” below.

No person is authorised to give any information or to make any representation not contained in this Prospectus and any information or representation not so contained must not be relied upon as having been authorised by or on behalf of the Issuer, the Guarantor or the Bookrunners (as defined in “Subscription and Sale” below). Neither the delivery of this Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of either the Issuer or the Guarantor since the date hereof or that there has been no adverse change in the financial position of either the Issuer or the Guarantor since the date hereof or that the information contained in it or any other information supplied in connection with the Securities is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

To the greatest extent permitted by law, the Bookrunners accept no responsibility whatsoever for the contents of this Prospectus or for any other statement made or purported to be made by the Issuer or a Bookrunner or on its behalf in connection with the Issuer, the Guarantor or the issue and offering of the Securities. Each Bookrunner accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Prospectus or any such statement.

MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the Securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Securities (a distributor) should take into consideration each manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

Prohibition of sales to EEA and UK retail investors – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”) or in the United Kingdom (the “UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of
MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

In connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "CMP Regulations 2018") the Securities shall be prescribed capital markets products (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in the Monetary Authority of Singapore (the "MAS") Notice SFA 04-N12: Notice on the Sale of Investment Products and in the MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”) and are subject to U.S. tax law requirements. Subject to certain exceptions, the Securities may not be offered, sold or delivered within the United States or to U.S. persons.

The Securities may not be a suitable investment for all investors. Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(a) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Prospectus or any applicable supplement;

(b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;

(c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities;

(d) understand thoroughly the terms of the Securities and be familiar with the behaviour of the relevant financial markets and of any financial variable which might have an impact on the return on the Securities; and

(e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Securities are complex financial instruments and such instruments may be purchased by potential investors as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Securities unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor’s overall investment portfolio.

Prospective investors should also consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of the Securities.

The credit ratings assigned to the Securities may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold Securities and may be revised or withdrawn by the rating agency at any time.
The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) the Securities are legal investments for it, (2) the Securities can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any of the Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Unless otherwise specified or the context requires, references to “£” are to the lawful currency of the UK and references to “euro” and “€” are to the lawful currency introduced at the start of the third stage of European Economic and Monetary Union pursuant to the Treaty establishing the European Community.

In connection with the issue of the Securities, Barclays Bank PLC (the “Stabilisation Manager”) (or any person acting on behalf of the Stabilisation Manager) may over-allot the Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager (or any person acting on behalf of the Stabilisation Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Securities is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the Securities and 60 days after the date of the allotment of the Securities. Any stabilisation action or over-allotment must be conducted by the Stabilisation Manager (or any person acting on behalf of the Stabilisation Manager) in accordance with all applicable laws and rules.

Amounts payable under the Securities are calculated by reference to the 5-year swap rate for euro swaps with a term of five years which appears on the Reuters screen “ICESWAP2” as of 11.00 a.m. (Central European Time) on the Reset Interest Determination Date (as defined in the Conditions), which is provided by ICE Benchmark Administration Limited (“IBA”) or the Euro-zone inter-bank offered rate (“EURIBOR”) which is provided by the European Money Markets Institute (the “EMMI”, and each of the IBA and the EMMI, an “Administrator”). As at the date of this Prospectus, IBA and the EMMI each appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011).

RISK FACTORS

Each of the Issuer and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under the Securities. Most of these factors are contingencies which may or may not occur. In addition, factors which are material for the purpose of assessing the market risks associated with the Securities are also described below.

Each of the Issuer and the Guarantor believes that the factors described below represent the principal risks inherent in investing in Securities, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or in connection with any Securities may occur for other reasons and neither the Issuer nor the Guarantor represents that the statements below regarding the risks of holding any Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

Factors that may affect (i) the Issuer’s ability to fulfil its obligations under the Securities and (ii) the Guarantor’s ability to fulfil its obligations with respect to the Securities under the Guarantee

STRATEGIC RISKS

The Group faces strong competition in highly competitive markets and technology change which could negatively affect the Group’s growth prospects

The Group’s strategy and business model could be disrupted by technology change and/or intensifying competition from established competitors and new entrants into the Group’s markets. This competition compounds some of the external challenges in the market: fixed broadband and mobile connectivity nearing saturation; customers seeking fast migration from higher-margin legacy products to fully digitised, converged, secure and faultless solutions; efficient markets demanding clear differentiation for premium pricing, driving price deflation of basic connectivity and data; and high exit barriers, prolonging and intensifying competition even when selected companies in the sector are struggling to generate economic returns.

Technology change is also a key characteristic of the telecoms sector. The Group has to be able to identify emerging technologies, assess how customers will adopt these technologies and invest accordingly, frequently a long time before the demand materialises, in order to compete effectively. The Group also needs to respond to changes in use of existing technology, such as the exponential growth the sector has seen in data consumption and network capacity requirements.

The UK telecoms market has struggled to grow, and competition has increased as many of the Group’s competitors have attempted to take more market share. Some alternative network providers have announced fibre network investment plans in the UK. UK sports rights competition increased, with Amazon winning a three-year broadcast package for the Premier League, and ITV winning a four-year package for the FA Cup. Competitors are also developing their future 5G propositions and increased competition could also challenge the significant wholesale contracts BT has with other UK telecommunications operators.

Intensified competition can result in lower volumes and/or prices than currently anticipated. If the Group fails to respond effectively to competition then it can lose market share, revenue and/or profit.

In addition, new technology developments can lead to accelerated obsolescence of the Group’s current products, increased investment requirements, new sources of competition and/or the deterioration of its competitive position. This in turn can result in lower volumes and prices, stranded assets and higher costs. A failure to invest optimally in technology at the right time can have implications for the Group’s market position and ability to generate future revenue and/or profit.
Some of the Group’s activities continue to be subject to significant price and other regulatory controls, which may affect the Group’s market share, competitive position and future profitability

Regulation impacts the Group’s activities across all jurisdictions. In the UK, Ofcom (the independent regulator for the UK communications industries) can identify competition concerns in the communications markets and set rules requiring the Group to provide certain services on specified terms to its customers. Ofcom reviews markets regularly and can introduce, extend, relax or remove rules as a result of its findings in a market review. Ofcom has powers to conduct specific investigations about market behaviour, including price levels. In addition, Ofcom can set out rules for spectrum auctions (such as the 5G spectrum auction expected in Spring 2020) to ensure consumer protection in the sector.

Ofcom will investigate the Group’s compliance with regulatory requirements and can impose fines and restitution on the Group for non-compliance.

Ofcom also has powers to regulate the terms on which the Group is supplied with certain services by others – for example, mobile call termination from other suppliers – and can resolve disputes between the Group and other communications providers (“CPs”) about the terms on which services are supplied. Appeals of regulatory decisions can also give rise to risks as well as opportunities.

Outside the UK, regulation defines where and how the Group is able to compete through licensing rules and defining the terms on which it is able to access networks of incumbent operators.

Some of the Group’s revenue is from the supply of wholesale services into markets where the Group has been found to have significant market power under various Ofcom market reviews. This includes revenue relating to services where regulation requires the Group to reduce average prices annually by a defined percentage for a three-year period. The regulatory controls will constrain revenues during that period.

Where CPs ask Ofcom to resolve disputes with the Group, there is a risk that Ofcom may set the prices at which services must be supplied by the Group and/or require the Group to provide additional services and/or have an impact on how the Group structures its business. In some circumstances, Ofcom can adjust historic prices and require the Group to make repayments to wholesale customers.

Ofcom has continued its cycle of market reviews, including consultations on the business connectivity and physical infrastructure markets and on its move to more holistic regulation of access across business and residential markets. Ofcom also published Digital Communications Review Implementation Reports in June and November 2018 reviewing BT’s and Openreach’s adoption of the Commitments and Governance Protocol (the agreement reached with Ofcom on the legal separation of Openreach). The Group will face risks and challenges from implementing a new operational structure, including operating Openreach as an independent business within the Group.

Consumer issues, such as the charges applied once a customer’s minimum contract term expires, were part of a super-complaint made by Citizens Advice in September 2018 to the Competition and Markets Authority (CMA), which covered matters across the telecommunications and financial services sectors. The issues identified were referred back to the sector regulators to deal with, in the case of telecommunications to Ofcom. The CMA retains oversight of regulators’ progress in dealing with the issues the CMA identified in its report. As part of its oversight, the CMA reports into regular ‘ministerial forums’, chaired by the Minister for Small Business, Consumers and Social Responsibility.

The Department of Digital, Culture, Media and Sport published its Future Telecoms Infrastructure Review in July 2018 as part of the UK Government’s modern industrial strategy, setting out a longer-term vision for the UK’s connectivity and associated infrastructure. This thinking fed into the Government’s ‘statement of strategic priorities’ for Ofcom, which was issued in October 2019, and to which Ofcom must have regard in exercising its functions.
Regulation in the UK can result in reduced prices on products; increased costs of doing business due to the service standards the Group is required to meet; and limitations in the scope and competitiveness of the services the Group can provide, impacting the Group’s revenue and/or profit.

Regulation outside the UK can also impact the Group’s revenue. For example, the degree of restrictiveness of licence requirements and effectiveness of regulation can restrict the Group’s ability to access other networks on fair terms. Regulation can also define and control the terms of access to necessary regulated inputs, which raises the Group’s costs.

**Political and geopolitical risks could affect the Group’s business, financial condition, results of operations and prospects, as well as exacerbating the adverse effects of other risks to its business**

Across the Group’s operations, it is exposed to the effects of political and geopolitical risks, in particular:

- In the UK, internet access is increasingly seen as an essential part of people’s lives. As a result, the level of political debate continues to focus on network coverage, price, quality and speed of service as well as broader issues of online safety and security. This includes the recent decision by the Government restricting the use of equipment from certain vendors in the UK telecoms network. As well as providing a critical element of the UK’s national infrastructure, both fixed and wireless, the Group is also engaged in supporting high profile programmes such as the Broadband Delivery UK regional fibre deployment programme and the Emergency Services Network.

- The result of the UK referendum to leave the European Union (“Brexit”) has increased political uncertainty and instability. This continues to impact political debates around the UK, including regarding the nature of the UK’s future relationship with the EU, the possibility of a second Scottish independence referendum and the complex situation in Northern Ireland including border matters.

- Outside the UK, political and geopolitical risk can impact the Group’s business through changes in the regulatory and competitive landscape, but also as a direct threat to its people and assets as a result of social unrest or a break down in the rule of law.

Political uncertainty can have direct financial consequences across the economy, impacting, for example, foreign exchange rates, the availability and cost of capital, interest rates may also result in changes in the tax regime. In addition, the effects of political uncertainty and other political and geopolitical risks can exacerbate the effects of other risks to the Group’s business. For example, in the UK there is an increasing overlap between political debate and the regulatory environment, which increases the Group’s regulatory risk profile. In particular, there has continued to be high political interest and policy focus around communications – particularly fibre broadband, 5G and improving mobile coverage in rural areas, including the publication by the Department for Digital, Culture, Media and Sport of its Future Telecoms Infrastructure Review in July 2018, subsequent issuance of the Government’s October 2019 statement of strategic priorities for Ofcom and related focus in the December 2019 General Election campaign. There has also been more political focus on issues like consumer pricing and contracts, as well as security and competition in the communications supply chain. The pace and scale of BT’s investment in fibre to the premises will also be influenced by Government decisions, for example on business rates.

The impacts of Brexit are still uncertain while the UK’s future trading relationship with the European Union is determined. The Group’s costs may increase as a result of, for example, changes required to its systems to reflect new taxes or customs duties; regulatory risk may increase as a result of any future divergence with the European Union regime, including where the Group’s suppliers may be disrupted as a result of challenges in its suppliers’ own organisations and supply chains; and it may become more difficult to recruit and retain skilled staff and source sufficient construction workers. The UK’s economy may also suffer as a result of this
uncertainty, and the possibility of a disorderly exit after the transition period (which is due to run until 31 December 2020) could have a damaging impact on consumer and business confidence.

Geopolitical risk outside the UK can also impact the Group’s regulatory risk profile, but also its security and resilience risks where it poses a threat to the continuity of the Group’s operations.

**FINANCIAL RISKS**

*The Group has a significant funding obligation in relation to its defined benefit pension schemes. Low investment returns, high inflation, longer life expectancy and regulatory changes may result in the cost of funding the Group’s main defined benefit pension scheme, the BT Pension Scheme (“BTPS”), becoming a significant burden on the Group’s financial resources.*

The BTPS, which represents over 97 per cent. of the Group’s pension obligations, faces similar risks to other defined benefit schemes in the UK. Future low investment returns, high inflation, longer life expectancy and regulatory changes may all result in the cost of funding the BTPS becoming a more significant burden on the Group’s financial resources.

The 30 June 2017 actuarial valuation of the BTPS was agreed in May 2018 and showed an increase in pension liability compared to the previous valuation in 2014, but also provides certainty as to the level of cash contributions required until the next triennial valuation, due to start in June 2020.

When a valuation is calculated, the funding position is affected by the financial market conditions at the valuation date. When determining expected future returns on the assets of the BTPS, different factors are taken into account, including yields (or returns) on government bonds. If the returns on the assets are lower than expected over the period to the next valuation, or a lower future investment return assumption is adopted at the next valuation, the deficit would likely increase, potentially leading to a higher level of future deficit payments.

In March 2019, the UK regulator of workplace pension schemes issued its annual statement, which increased the regulatory pressure on companies – for example, encouraging trustees of workplace pension schemes to seek shorter recovery plans (of less than seven years) and to aim for contributions no lower than dividend payments. This could potentially have a negative impact on the level and timing of the Group’s cash contributions following the next triennial valuation.

An increase in the pension deficit and/or higher deficit payments could limit the Group’s ability to invest in its business, pay dividends or repay debt as it matures, which could in turn adversely affect the Guarantor’s share price and the Group’s credit rating.

*The Group faces a variety of financial risks which could adversely affect profitability, liquidity and reputation.*

As a business with global operations, the Group is exposed to a variety of financial risks, including foreign exchange risk, interest rate risk, credit risk, liquidity risk and tax risk.

An adverse movement in foreign exchange and/or interest rates could negatively affect the Group’s profitability, cash flow and balance sheet. In addition, unfavourable economic conditions may arise which could impact the Group’s ability to generate sufficient cash flow or to access capital markets to enable the Group to service or repay its indebtedness or to fund its other liquidity requirements on commercially reasonable terms. If economic conditions worsen, the Group may find that its financial performance could be impacted by delays in its customers making purchasing decisions, reductions in customers’ use of the Group’s services, default of customers, counterparties and suppliers, or the redenomination of their contractual payment obligations.
In 2018, Standard & Poor’s and Fitch downgraded the Group’s credit rating, due to concerns over the effect that competing pressures, including those related to the Group’s pensions and its network investments, may have on the Group’s cash flows.

The failure of the Group’s treasury counterparties to honour financial obligations could also have an adverse impact on the Group’s liquidity (for example, from the loss of cash deposits) and its profitability (for example, from increased finance expenses). A deterioration in the Group’s liquidity could have an adverse effect on the Group’s assessment of going concern, particularly if combined with an inability to refinance maturing debt.

Further, because the Group operates internationally, it is subject to a complex and evolving matrix of tax regimes. For example, the Organisation for Economic Co-operation and Development’s Base Erosion and Profit Shifting project and the United States tax reform, the European Commission’s challenge to tax practices under state aid provisions and the European Commission and UK proposals for the introduction of an interim digital services tax, are changing the current and future tax consequences of business decisions. Failure to comply with these regimes could result in financial penalties and reputational damage. In addition, lack of adequate tax planning could result in deficient strategies resulting in financial losses and potentially financial misstatements, as well as reputational damage.

**COMPLIANCE RISKS**

*Failures in the Group’s financial control framework can result in financial misstatement and financial loss*

Financial controls, and the assurance that exists over them, are an important part of the Group’s ability to prevent and detect inappropriate behaviour and error. This includes fraud, deliberate financial misstatement and improper accounting practices, as well as breaches of anti-corruption, bribery or sanctions legislation. However, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

During 2018/19, the Group commenced a significant Sarbanes-Oxley control enhancement programme which identified two particular areas requiring remediation: IT general controls and risk assessment. Although significant improvements have been made, remediation and testing of all remediation plans was not complete at 31 March 2019 and are a continuing focus for 2019/20. The Group concluded that unremediated deficiencies in the two areas resulted in material weaknesses in the Group’s internal control over financial reporting as at 31 March 2019 under the U.S. Sarbanes-Oxley Act. As a result, the Group’s management concluded that the disclosure controls and procedures were not effective to provide reasonable assurance that information required to be disclosed by the Group in the reports filed or furnished under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms.

Failures in the Group’s financial control framework could result in financial misstatement, financial loss, including a failure to prevent fraud, or key decisions being taken based on incorrect information.

Notwithstanding anything stated in this risk factor, this risk factor should not be taken as implying that the Issuer or the Guarantor will be unable to comply with its obligations as a company with securities admitted to the Official List.

*Failure to comply with relevant data protection and privacy laws could adversely affect the Group*

As a major data controller and processor of customer information around the world, the Group recognises the importance of adhering to data privacy laws. The Group wants individuals and businesses to be confident that when they give their data to the Group they can trust the Group to do the right thing with that data. This includes properly securing customer data, keeping it protected against both internal and external threats (such as cyber-attacks), preserving the integrity of the personal data processed, only keeping the data required to provide
customers with the services for which they have signed up. It also includes ensuring transparency around how the Group uses and shares that data, ensuring personal data is processed in a way that is legal, fair and in line with customers’ rights and wishes as well as ensuring that the Group fulfils its legal obligations when customers want to exercise their rights under data legislation. The ability to use data in a compliant manner is therefore critical to the future success of the Group.

As a communications provider, the Group currently operates under a stringent reporting regime to tell the UK Information Commissioner’s Office (“ICO”) if the Group becomes aware of a personal data security breach. The Group must also tell any affected individuals as quickly as possible if the incident is likely to have an impact on them. An individual’s fundamental right to privacy is reflected in the fact that data privacy laws are in force in more than 100 countries. The nature of those laws varies across different parts of the world. Increasingly, the Group must show that it is handling personal data in line with a complex web of national data laws and society’s ethical expectations.

Today the need to protect the privacy rights of the individual is reflected in data privacy laws in force in over 100 countries. The Group, and other multinational companies, are increasingly having to evidence that personal data is being handled in accordance with a complex matrix of national data laws and societal ethical expectations and, in the case of a personal data security breach, the Group will have varying reporting obligations (for instance, in the UK, the Group is required to report any such breaches to the ICO and also report to the affected individuals as quickly as possible if the incident is likely to have a significant impact on them). Furthermore, on 25 May 2018 the European Union’s General Data Protection Regulation (“GDPR”) came into force, which created a range of new compliance obligations, increased financial penalties for non-compliance and extended the scope of the European Union’s data protection laws.

These regulatory regimes present a significant challenge. A number of major corporations have fallen victim to significant data breaches this year, which resulted in a significant impact to their share price and ongoing costs as a consequence of non-compliance. Failure to comply with data protection and privacy obligations may result in regulatory enforcement action, significant fines, legal action (class-action or breach of contract), criminal sanctions (including prison sentences), significant reputational damage, customer churn and the Guarantor’s shareholder divestment and financial loss. The sanctions for breaching the GDPR are significantly higher than under the previous regime, which could result in a substantial fine in the event of a breach.

*Failure to comply with health and safety legislation could adversely affect the Group*

The Group, and in particular its UK engineering workforce, undertakes activities that involve risk of injury or illness. Many of the Group’s workforce, especially its UK engineers, often work in community settings where the Group has limited control over the working environment. Much of the network is carried above ground level and temporary work at height is a major risk for the Group.

The failure to implement and maintain effective health safety management could generate significant human and financial costs as a result of injury to the Group’s workforce or members of the public, financial penalties, hindered or stopped operations and/or reputational damage. The Group aims to adapt technology and working practices to help reduce the physical risks to people, although there can be no assurances that these changes will be successful.

All of the Group’s staff work in a fast-paced and highly competitive sector where change is constant and psychological pressures are significant. Managing physical and psychological hazards is therefore complex. Poor wellbeing amongst the Group’s workforce could lead to increased absence and reduced performance levels.

A change in the Group’s workforce is increasing risks in areas such as driving. The Group has had a mature workforce, with little labour turnover, for many years. That cadre is reaching retirement age and consequently
the Group is recruiting large numbers of younger people. The new intake of younger people may have a different risk attitude, combined with less experience, resulting in the need for the Group to make sure it puts in place additional safeguards, with less reliance on expertise and individual judgment.

The pace of upgrading the network, fixed and mobile, has continued to accelerate. That increases the Group’s civil engineering workload and the hazards and risks associated with that type of work.

The pace and scale of change within the Group’s business has also continued to accelerate and the Group is aware this has a psychological impact on its people.

The wellbeing of the workforce is important if the Group is to transform its business while continuing to recruit, retain and engage its workforce to deliver a positive customer experience and achieve sustainable, profitable revenue growth. An adverse response to the change programme could impact the Group’s ability to retain key staff, resulting in a loss of critical skills and a greater need for external recruitment, which would add cost to the business. Poor engagement also raises the risk of general industrial unrest and action.

**Failure to comply with legal requirements and ethical standards can have a significant impact and lead to damage to the brand and a loss of reputation**

The Group is committed to maintaining high ethical standards, and has a zero tolerance approach to fraud, bribery, any form of corruption or any illegal or unethical activity. The Group has to comply with a wide range of local and international laws, including anti-corruption and bribery laws. The UK Bribery Act and the United States Foreign Corrupt Practices Act (“FCPA”) have extraterritorial reach and thereby cover the Group’s global operations. The Group has seen a steady flow of significant cases under both the UK Bribery Act and the FCPA. The Group also has to ensure compliance with trade sanctions as well as import and export controls. The Group complies with the UK Modern Slavery Act and follows international standards on human rights, such as the International Labour Organisation’s Principles and the United Nations Guiding Principles on Business and Human Rights. There has been a steady flow of significant cases from both the UK Bribery Act and the FCPA. There has also been an increase in legislation (either enacted or proposed) to address and report on human rights abuses by companies.

The Group also faces the risks associated with inappropriate and unethical behaviour in local and other markets by its employees or associates, such as suppliers or agents, which can be difficult to detect. There is also the risk that the Group’s controls, which are designed to prevent, detect and correct such behaviour may be circumvented. Controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and there can be no assurance that any design will succeed in achieving its stated goals under all potential conditions, regardless of how remote.

Failure by the Group’s employees, or associated persons such as suppliers or agents, to comply with anti-corruption, bribery, sanctions or other legislation could result in significant penalties, criminal prosecution and damage to the Group’s brand and reputation. This could in turn impact the Group’s future revenue and cash flow, the extent of which would depend on the nature of the breach, the legislation concerned and any penalties. Allegations of corruption, bribery, abuse of human rights or violation of sanctions regulations or other laws could also lead to reputational damage with investors, regulators, civil society and customers. Further, if fraud is committed, there is a risk of financial misstatement which if undetected can have a material financial impact and potential litigation and regulatory consequences.

**Operational Risks**

**The Group’s customer experience may not be brand enhancing nor drive sustainable profitable growth**

Failure of the Group to deliver customers the positive experience they expect with respect to products and services, culture, brand, processes leadership, technology, employees and policies could damage the Group’s
brand or cause customers to leave, resulting in a reduction of revenue or leading to financial penalties. Any such failure could impact the experience of employees as well, including their pride in working for the Group. Perceptions around poor customer experience also have the potential to influence political and regulatory discussions and interventions, which can in turn impact the Group’s business. In addition, as the Group progresses its change management programme, there is a risk that the volume of change across the Group could result in a loss of focus on delivering for the customer.

**The Group’s business may be adversely affected if it fails to perform on major contracts**

The Group has a number of complex and high-value government, national and multinational customer contracts. The revenue arising from, and the profitability of, these contracts is subject to a number of factors including: variation in cost; achievement of cost reductions anticipated in the contract pricing (both in terms of scale and time); delays in the achievement of agreed milestones owing to factors either within or outside the Group’s control; changes in customers’ needs, their budgets, strategies or businesses; penalties for failing to perform against agreed service levels; and the performance of the Group’s suppliers. Any of these factors could make a contract less profitable or even loss-making.

The degree of risk varies in proportion to the scope and life of the contract and is typically higher in the early stages of the contract. Some customer contracts require investment in the early stages, which is expected to be recovered over the life of the contract.

Major contracts often involve the implementation of new systems and communications networks, transformation of legacy networks and the development of new technologies. The recoverability of these upfront costs may be impacted by delays or failure to meet milestones. Substantial performance risk exists in some of these highly complex contracts particularly at the initial set-up and transformational contract phases.

Failure by the Group to manage and meet its commitments under these contracts, as well as changes in customers’ requirements, their budgets, strategies or businesses, may lead to a reduction in the Group’s expected future revenue, profitability and cash generation. Unexpectedly high costs associated with the fulfilment of particular transformational contracts could also negatively impact profitability.

Earnings may be reduced or contracts may even become loss-making through loss of revenue, changes to the customers’ businesses (for example, due to mergers or acquisitions), business failure or contract termination. Failure to replace the revenue and earnings lost from such customers could lead to an overall reduction in the Group’s revenue, profitability and cash flow.

One of the Group’s largest contracts is the delivery of a key element of the UK Emergency Services Network, which is being delivered with several partners and is managed by the UK Home Office. In addition, the Group continues to deliver a number of contracts with local authorities through regional fibre deployment programmes including the Broadband Delivery UK programme. As with the Group’s other major contracts, failure to deliver either of these contracts successfully may lead to a reduction in the Group’s expected future revenue, profitability and cash generation. These contracts are high-profile and therefore carry a higher reputational risk, and they present specific risks around deployment, delivery and the Group’s ability to recover public funding. The Group also has an obligation to potentially either re-invest or repay grant funding depending on a number of factors, including the level of customer take-up achieved.

**Failure to prevent or respond to interruptions to the Group’s services could adversely affect the Group’s reputation and market share as well as major financial loss**

The security and resilience of the Group’s services are critical factors in its commercial success. There is a risk that the Group is unable to prevent and respond to incidents caused by natural perils, network and system faults, and malicious acts that threaten the Group’s network. The Group faces a variety of hazards that could cause
significant interruptions to the delivery of its services, including cyber-attacks supply chain failure, software changes, equipment faults, fire, flood, infrastructure outages and sabotage.

Extreme weather always challenges the Group’s IT and network estate. In 2019 the Group had to keep its network operating through lightning storms and heavy rain.

The consequences of service interruptions can include major financial loss, long-term reputational damage and loss of market share. Regulatory sanctions, fines and contract penalties might be applied, contracts might be terminated and costly concessions might be required, together with unplanned and rapid improvements to retain business and rebuild trust. The Group might also miss opportunities to grow revenue and launch new services before its competitors.

**Failure to manage cyber and information security threats**

The Group’s networks and systems are exposed to a number of security threats, including cyber-attacks. Hacking tools, phishing scams and disruptive malware are becoming more sophisticated and more accessible to attackers. As noted above, the security and resilience of the Group’s services are critical factors in its commercial success. The Group continues to develop its cyber defence capability and invest more in automatic detection and prevention systems to keep the likelihood of any ‘successful’ attack to an absolute minimum, but complete protection can never be guaranteed.

Cyber-attackers are learning how to defeat conventional defences such as anti-virus (“AV”), proxy servers, and basic authentication. They are changing malware signatures faster than AV vendors can deliver matching identity files, launching ‘Denial of Service’ attacks that are disguised as legitimate traffic at the application level, and using increasingly convincing phishing emails to trick users into giving access to restricted systems. Major corporates continue to fall victim to cyber-attack, with a number of high-profile incidents occurring in 2018 and 2019.

A failure of the Group’s protective measures to prevent or contain a major security incident or business interruption or data being compromised could result in major financial loss, long-term reputational damage and loss of market share. Regulatory sanctions, fines and contract penalties might be applied, contracts might be terminated and costly concessions might be needed, together with unplanned and rapid improvements to retain business and rebuild trust. The Group might also miss opportunities to grow revenue and launch new services ahead of the Group’s competition.

**The integrity and continuity of the Group’s supply chain is critical to its operations**

The Group operates in a global supply market, and its supply chains range from simple to very complex. There are often several links in the ‘chain’ of supply of a product or service to the Group. Guaranteeing the integrity and continuity of those links in the supply chain is critical to the Group’s operations, and therefore a significant risk to its business. A global marketplace also exposes the Group to global risks, including different standards in labour, environmental and climate change practices, increasing regulation and geopolitical events. The Group evaluates the impact and likelihood of external market forces on suppliers’ ability to support the Group.

A global supply market brings better sourcing opportunities but also brings its own challenges, if suppliers become more geographically and culturally remote from the Group’s customers, or if governments put barriers in the way of doing business to protect national or regional economic interests.

The Group is committed to ensuring that all dealings with its suppliers, from selection and consultation through to contracting and payment, are in accordance with its trading and ethical policies. If any link in the Group’s supply chain does not meet the applicable legal requirements or fails to meet the Group’s ethical expectations, its reputation could be damaged and it may be subject to legal action, fines and lost revenue.
The financial costs and/or reputational damage associated with supplier failure could be significant, particularly if it results in the Group having to change a technology or system. If the substitution of a failing supplier caused disruption to the Group’s business, that could cost a significant amount of time and money. If the Group is unable to contract with an alternative supplier, that could compromise the commitments the Group makes to its customers, which could lead to a contractual breach, loss of revenue or penalties. If the Group does not meet the expectations of regulators that govern the Group and the data it manages, it could result in significant penalties.

Threats to the supply chain include the impacts of the United Kingdom vote to leave the European Union, which has required extensive preparation on the part of the Group to understand its suppliers’ readiness and the impact on the availability of goods and services. Other impacts of supplier risk include the threat of modern slavery and human trafficking, the growing threat of cyber-attacks on the Group’s systems and networks where its suppliers represent a source of vulnerability, and public health issues (such as the recent outbreak of Coronavirus in China and elsewhere).

Over the course of 2019 there was significant geopolitical focus on Huawei, one of the Group’s major suppliers whose products include mobile handsets and also equipment for both current networks and for future 5G networks. The Group has been monitoring these developments and will continue to do so as governments determine their future policies. In December 2018, the Group announced that, in line with its long-standing network architecture principles around the use of Huawei, the Group will replace the current Huawei 4G core (inherited through the EE acquisition). This will be implemented as the Group moves in the future to a new and combined 4G/5G core.

A failure to meet legal obligations or ethical expectations could adversely affect the Group’s reputation or possibly lead to legal action, penalties and financial loss.

Failure to recruit, retain and engage a talented workforce could impact the Group’s ability to successfully deliver services and products to its customers

The Group’s people are central to its business and a vital part of its ambition to deliver a positive customer experience, and employee engagement is necessary to ensure the Group meets its strategic aims. The Group is transforming its business and at the same time continuing to recruit, retain and engage its workforce to deliver a positive customer experience and achieve sustainable, profitable revenue growth. An adverse response to the change programme could impact the Group’s ability to retain key staff, resulting in a loss of critical skills and greater need for external recruitment, which would add cost to the business. Poor engagement also raises the risk of general industrial unrest and action, which in turn could cause disruption to the Group’s operations and services that the Group provides to its customers.

Failure to successfully implement its wide-ranging change programme could create risks for the Group’s business

The Group is implementing a wide-ranging change programme across the entire organisation known as One BT. In addition, the Group’s transformation plan and reorganisation of its business has included establishing a new People Framework for management grades and work continues on delivering new Digital Global Services with a new organisational structure. The Group is also reviewing its wider location strategy, including exiting its headquarters in Central London. These changes need to be managed carefully to ensure they deliver the desired outcomes and avoid distraction and uncertainty.

Failure to manage and implement the change programme successfully could result in poorer customer experiences, negative impacts on employee engagement or potential overspend on the projects themselves. In addition, the projects may not successfully achieve the efficient processes, cost savings or differentiated products and services intended. If the Group’s transformation programmes do not deliver the intended customer benefits, or if they divert employees’ attention away from the Group’s customers, the Group may suffer a
reduction in the quality of service it provides, and as a result incur customer churn and even financial penalties in some cases.

Risks related to the Securities generally

The Securities will be subject to optional redemption by the Issuer including upon the occurrence of certain events

Unless previously repaid, redeemed, purchased and cancelled or (pursuant to Condition 8) substituted, the Issuer will redeem the Securities on 18 August 2080, at 100 per cent. of their principal amount together with any accrued and unpaid interest to such date (including any accrued but unpaid Deferred Interest). The Securities will be redeemable, at the option of the Issuer, in whole but not in part on (i) any date during the period commencing (and including) on the date three months prior to the First Reset Date to (and including) the First Reset Date and (ii) any Interest Payment Date thereafter at their principal amount together with any accrued and unpaid interest up to (but excluding) the redemption date and any outstanding Deferred Interest.

In addition, upon the occurrence of an Accounting Event, a Rating Capital Event, a Tax Deductibility Event, a Substantial Repurchase Event or a Withholding Tax Event (each as defined in the Conditions and as more fully described in Condition 7 of the Securities and subject to the relevant provisions in Condition 7 and Condition 9 of the Securities), the Issuer shall have the option to redeem, in whole but not in part, the Securities at (i) 101 per cent. of their principal amount, together with any accrued and unpaid interest up to (but excluding) the redemption date, including any accrued but unpaid Deferred Interest (in the case of an Accounting Event, a Rating Capital Event or a Tax Deductibility Event where any such redemption occurs before 18 May 2025) or (ii) 100 per cent. of their principal amount, together with any accrued and unpaid interest up to (but excluding) the redemption date, including any accrued but unpaid Deferred Interest (in the case of a Substantial Repurchase Event or a Withholding Tax Event where any such redemption occurs at any time or in the case of an Accounting Event, a Rating Capital Event or a Tax Deductibility Event where any such redemption occurs on or after 18 May 2025).

Furthermore, if an Accounting Event, a Rating Capital Event, a Tax Deductibility Event or a Withholding Tax Event occurs, then, subject to the provisions of Conditions 8 and 9 of the Securities, the Issuer may at any time, instead of giving notice to redeem the Securities, substitute all, but not some only, of the Securities for, or vary the terms of the Securities so that they remain or become, as the case may be, Qualifying Securities. Whilst Qualifying Securities are required to have terms not otherwise materially less favourable to Holders (as defined below) than the terms of the Securities, there can be no assurance that the substitution or variation of the Securities will not have a significant adverse impact on the price of, and/or market for, the Securities or the circumstances of relevant individual Holders. For example, it is possible that the Qualifying Securities will contain conditions that are contrary to the investment criteria of certain investors and the tax and stamp duty consequences of holding the Qualifying Securities could be different for some categories of Holders from the tax and stamp duty consequences for them of holding the Securities prior to such substitution or variation.

During any period when the Issuer may elect to redeem the Securities, the market value of the Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem the Securities when its cost of borrowing is lower than the interest payable on them. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest payable on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.
The interest rate on the Securities will reset on the First Reset Date and on every Reset Date thereafter, which can be expected to affect the interest payment on the Securities and the market value of such Securities.

Although the Securities will earn interest at a fixed rate until (but excluding) the First Reset Date, the current market interest rate on the capital markets (the “market interest rate”) typically changes on a daily basis. Since the initial fixed rate of interest for the Securities will be reset on the First Reset Date (as set out in the Conditions) and on each subsequent Reset Date, the interest payment on the Securities will also change. Holders of the Securities (respectively, the “Holders”) should be aware that movements in these market interest rates can adversely affect the price of the Securities and might lead to losses for the Holders if they sell the Securities.

Holders are exposed to the risk of fluctuating interest rate levels and uncertain interest income as the reset rates could affect the market value of an investment in the Securities.

Integral multiples of less than the specified denomination

The denominations of the Securities are €100,000 and integral multiples of €1,000 in excess thereof. Therefore, it is possible that the Securities may be traded in amounts in excess of €100,000 that are not integral multiples of €100,000. In such a case, a Holder who, as a result of trading such amounts, holds a principal amount of less than €100,000, will not receive a definitive Security in respect of such holding (should definitive Securities be printed) and would need to purchase a principal amount of Securities such that it holds an amount equal to one or more denominations. If definitive Securities are issued, Holders should be aware that definitive Securities which have a denomination that is not an integral multiple of €100,000 may be illiquid and difficult to trade.

The Issuer’s and Guarantor’s obligations under the Securities are subordinated

The Issuer’s obligations under the Securities will be unsecured and subordinated. In the event that an order is made, or an effective resolution is passed, for the winding-up of the Issuer (otherwise than for the purposes of a solvent winding-up solely for the purposes of a reorganisation, reconstruction, amalgamation or the substitution in place of the Issuer of a “successor in business” (as defined in the Trust Deed) of the Issuer: (A)(x) the terms of which reorganisation, reconstruction, amalgamation or substitution have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed) or (y) which substitution will be effected in accordance with Condition 15; and (B) in each case the terms of which do not provide that the Securities shall thereby become redeemable or repayable in accordance with the Conditions) or an administrator of the Issuer has been appointed and such administrator gives notice that it intends to declare and distribute a dividend, the claims of the Holders will rank (i) junior to the claims of holders of all Senior Obligations of the Issuer, (ii) pari passu with the claims of holders of all Parity Securities of the Issuer and (iii) in priority to the claims of holders of the ordinary share capital of the Issuer and any other obligations of the Issuer, issued directly or indirectly by it, which rank, or are expressed to rank, pari passu with such ordinary share capital. See “Terms and Conditions of the Securities — Status of the Securities” and “Terms and Conditions of the Securities — Subordination of the Securities”.

The Guarantor’s obligations under the Guarantee will be unsecured and subordinated. In the event that an order is made, or an effective resolution is passed, for the winding-up of the Guarantor (otherwise than for the purposes of a solvent winding-up solely for the purposes of a reorganisation, reconstruction, amalgamation of the Guarantor or an administrator of the Guarantor has been appointed and such administrator gives notice that it intends to declare and distribute a dividend, the claims of the Holders under the Guarantee will rank (i) junior to the claims of holders of all Senior Obligations of the Guarantor, (ii) pari passu with the claims of holders of all Parity Securities of the Guarantor and (iii) in priority to the claims of holders of the ordinary share capital of the Guarantor and any other obligations of the Guarantor, issued directly or indirectly by it, which rank, or are expressed to rank, pari passu with such ordinary share capital. See “Terms and Conditions of the Securities — Status of the Guarantee” and “Terms and Conditions of the Securities — Subordination of the Guarantee”.

13
By virtue of such subordination, payments to a Holder will, in the events described in the Conditions, only be made after all obligations of the Issuer and/or the Guarantor resulting from higher ranking claims have been satisfied. A Holder may, therefore, recover less than the holders of unsubordinated or other prior ranking subordinated liabilities of the Issuer and/or the Guarantor. Furthermore, the Conditions will not limit the amount of the liabilities ranking senior to, or pari passu with, the Securities which may be incurred or assumed by the Issuer and the Guarantor from time to time, whether before or after the Issue Date. The incurrence of any such other liabilities may reduce the amount (if any) recoverable by Holders on a winding-up or administration of the Issuer and/or the Guarantor and/or may increase the likelihood of a deferral of interest payments under the Securities. Subject to applicable law, no Holder may exercise, claim or plead any right of set-off, compensation or retention in respect of any amount owed to it by the Issuer or the Guarantor in respect of, or arising under or in connection with, the Securities and each Holder shall, by virtue of his holding of any Security, be deemed to have waived all such rights of set-off, compensation or retention.

Although subordinated debt securities, such as the Securities, may pay a higher rate of interest than comparable debt securities which are not subordinated, there is a real risk that an investor in subordinated securities such as the Securities will lose all or some of his investment should the Issuer become insolvent.

**The Issuer has the right to defer interest payments on the Securities**

The Issuer may, at its discretion, elect to defer all or part of any payment of interest on the Securities, subject to limited exceptions. See “Terms and Conditions of the Securities — Optional Interest Deferral”. While the deferral of payment of interest continues, the Issuer is not prohibited from making payments on any instrument ranking senior to the Securities or on certain instruments ranking pari passu with the Securities and, in such event, the Holders are not entitled to claim immediate payment of interest so deferred.

Any such deferral of interest payments or perceived likelihood of a future deferral of interest payments will not constitute a default for any purpose unless such payments are required in accordance with Condition 6(c) of the Securities.

Any deferral of interest payments in respect of the Securities is likely to have an adverse effect on the market price of the Securities. In addition, as a result of the interest deferral provision of the Securities, the market price of the Securities may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such deferrals and may be more sensitive generally to adverse changes in the Issuer’s and/or the Guarantor’s financial condition.

The Securities may not be redeemed unless and until all outstanding Deferred Interest in respect of such Securities is satisfied in full, on or prior to the date set for the relevant redemption.

**Limited Remedies**

Payments of interest on the Securities may be deferred in accordance with Condition 6(a) of the Securities and interest will not, therefore, be due other than in the limited circumstances described in Condition 6(c) of the Securities.

The only event of default in the Conditions is if a default is made by the Issuer and the Guarantor for a period of 14 days or more in relation to the payment of principal or for a period of 28 days or more in respect of any payment of interest (including any Deferred Interest), in each case in respect of the Securities and which is due and payable. In the event of such a default the Trustee may institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor and/or prove in the winding-up or administration of the Issuer and/or the Guarantor and/or claim in the liquidation or administration of the Issuer and/or the Guarantor for such payment.
Therefore, it will only be possible for the Holders to enforce claims for payment of principal or interest in respect of the Securities when the same are due.

In addition, if an order is made, or an effective resolution is passed, for the winding-up of the Issuer (otherwise than for the purposes of a solvent winding-up or substitution in place of the Issuer of a “successor in business” of the Issuer) or an administrator of the Issuer has been appointed and such administrator gives notice that it intends to declare and distribute a dividend, the claims of Holders will be subordinated to the claims of holders of all Senior Obligations of the Issuer as further described in Condition 3(a) of the Securities. Accordingly, without prejudice to the rights of the Trustee and the Holders against the Guarantor, the claims of holders of all Senior Obligations of the Issuer will first have to be satisfied in any winding-up or administration proceedings before the Holders may expect to obtain any recovery in respect of their Securities and prior thereto the Holders will have only limited ability to influence the conduct of such winding-up or administration proceedings.

Furthermore, in the event that an order is made, or an effective resolution is passed, for the winding-up of the Guarantor (otherwise than for the purposes of a solvent winding-up of the Guarantor) or an administrator of the Guarantor is appointed and such administrator gives notice that it intends to declare and distribute a dividend, the rights and claims of the Holders under the Guarantee will be subordinated in accordance with Condition 4(c) of the Securities. Accordingly, without prejudice to the rights of the Trustee and the Holders against the Issuer, the claims of holders of all Senior Obligations of the Guarantor will first have to be satisfied in any winding-up or analogous proceedings before the Holders may expect to obtain from the Guarantor any recovery pursuant to the Guarantee in respect of their Securities and prior thereto the Holders will have only limited ability to influence the conduct of such winding-up or analogous proceedings.

**Modification, Waiver and Substitution**

The Conditions contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions will permit defined majorities of Holders to bind all Holders, including those Holders who did not attend and vote at the meetings and Holders who voted in a manner contrary to the majority.

The Conditions and the Trust Deed will also provide that the Trustee may, without the consent of the Holders, agree to (i) any modification of the Conditions or of any other provisions of the Trust Deed or the Paying Agency Agreement in respect of the Securities which is in each case, in the opinion of the Trustee, of a formal, minor or technical nature or is made to correct a manifest error and (ii) any other modification to (except as mentioned in the Trust Deed in respect of the Securities), and any waiver or authorisation of, any breach or proposed breach by the Issuer and/or the Guarantor of, any of the Conditions or of the provisions of the Trust Deed or the Paying Agency Agreement in respect of the Securities which is, in the opinion of the Trustee, not materially prejudicial to the interests of the Holders (which will not include, for the avoidance of doubt, any modification entitling the Holders to institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor which are more extensive than those set out in Condition 12 of the Securities) or (iii) if so requested by the Issuer, agree to the substitution on a subordinated basis equivalent to that referred to in Conditions 2 and 3 of the Securities of certain other entities in place of the Issuer (or any previous substituted Issuer) as a new principal debtor under the Trust Deed and the Securities (and in certain circumstances, if so requested by the Issuer, the Trustee shall agree, without the consent of the Holders, to such substitution). Additionally, the Trustee shall, without any requirement for the consent or approval of the Holders, (i) be obliged to concur with the Issuer in effecting any Benchmark Amendments (as defined in the Conditions) required by the Issuer pursuant to (and subject to the provisions of) Condition 5(i) of the Securities or (ii) execute any documents necessary to effect either (a) the substitution of all, but not some only, of the Securities for, or (b) the variation of the terms of the Securities with the effect that they remain or become, as the case may be, Qualifying Securities, in each case in accordance with Condition 8 of the Securities, upon the occurrence of
an Accounting Event, a Rating Capital Event, a Tax Deductibility Event or a Withholding Tax Event and subject to certain conditions specified in Conditions 8 and 9 of the Securities.

Any such modification, waiver, and/or substitution may have a significant adverse impact on the price of, and/or the market for, the Securities.

Change of law

The Securities will be governed by English law. No assurance can be given as to the impact of any possible judicial decision or change to English law or any administrative practice thereof after the Issue Date.

Future discontinuance of EURIBOR or the occurrence of a Benchmark Event may adversely affect the value of the Securities

Future discontinuance of EURIBOR and benchmark reforms

EURIBOR and any other interest rate or other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory discussions and proposals for reform. Regulation (EU) No. 2016/1011 (the “Benchmark Regulation”), published in the Official Journal of the European Union on 29 June 2016 and applicable from 1 January 2018, could have a material impact on the Securities linked to EURIBOR, in particular, if the methodology or other terms of the “benchmark” are changed in order to comply with the terms of the Benchmark Regulation, and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level of the benchmark.

Following the implementation of any potential reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or the benchmark could be eliminated entirely, or there could be other consequences that cannot be predicted. The elimination of the EURIBOR benchmark, or changes in the manner of its administration, could require or result in an adjustment to the interest calculation provisions of the Conditions, or result in adverse consequences to Holders. Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the Securities, the return on the Securities and the trading market for securities (including the Securities) based on the same benchmark.

Potential for a fixed rate return

Investors should be aware that, if EURIBOR were discontinued or otherwise unavailable, the rate of interest on the Securities for the period from (and including) the Reset Date, which is based on a reset mid-swap rate, may be affected. If such rate is not available, the rate of interest on the Securities will be determined by the fall-back provisions applicable to the Securities. This may in certain circumstances result in the effective application of a fixed rate based on the rate which was last observed on the Screen Page.

In addition, any changes to the administration of the applicable annualised mid-swap rate for swap transactions in euro with a term of five years as referred to in the Conditions or the emergence of alternatives to such mid-swap rate as a result of these potential reforms, may cause such rate to perform differently than in the past or to be discontinued, or there could be other consequences which cannot be predicted. The potential discontinuation of such rate or changes to its administration could require changes to the way in which the Reset Interest Rate is calculated on the Securities from (and including) the Reset Date. Uncertainty as to the nature of alternative reference rates and as to potential changes to the relevant mid-swap rate may adversely affect the Reset Interest Rate, the return on the Securities and the trading market for securities (such as the Securities) based on the same mid-swap rate. The development of alternatives to the relevant mid-swap rate may result in the Securities performing differently than would otherwise have been the case if such alternatives to the relevant mid-swap
rate had not developed. Any such consequence could have a material adverse effect on the value of, and return on, the Securities.

Benchmark Event

The Conditions also provide for certain fall-back arrangements in the event that the Issuer determines that a Benchmark Event has occurred. The Issuer may, having used reasonable endeavours to appoint and consult an Independent Adviser, determine a Successor Rate or, failing which, an Alternative Rate to be used in place of the mid-swap rate. The use of any such Successor Rate or Alternative Rate to determine the Reset Interest Rate may result in the Securities performing differently (including paying a lower Reset Interest Rate than they would do if the relevant mid-swap rate were to continue to apply in its current form).

Furthermore, if a Successor Rate or Alternative Rate is determined by the Issuer, the Conditions provide that the Issuer may, following consultation with the Independent Advisor, vary the Conditions of the Securities, the Paying Agency Agreement and/or the Trust Deed, as necessary, to ensure the proper operation of such Successor Rate or Alternative Rate, without any requirement for consent or approval of the Holders. If a Successor Rate or Alternative Rate is determined by the Issuer, the Conditions also provide that an Adjustment Spread will be determined by the Issuer, in consultation with the Independent Advisor, to be applied to such Successor Rate or Alternative Rate. Accordingly, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Securities may not do so and may result in the Securities performing differently (which may include payment of a lower interest rate) than they would do if sub-paragraph (i) of the definition of 5-year Swap Rate Conditions were to apply. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, the Securities. However, no Successor Rate or Alternative Rate will be adopted, nor any Adjustment Spread applied, nor will any Benchmark Amendments be made, if and to the extent that, in the determination of the Issuer and the Guarantor, the same could reasonably be expected to cause a Rating Capital Event (as defined in the Conditions) to occur.

Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser, the potential for further regulatory developments and the fact that the provisions of Condition 5(i) will not be applied if the same could reasonably be expected to cause a Rating Capital Event to occur, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time. Moreover, any of the above matters or any other significant change to the setting or existence of the relevant mid-swap rate could adversely affect the ability of the Issuer to meet its obligations under the Securities and could have a material adverse effect on the value or liquidity of, and the amount payable under, the Securities.

Risks related to the market generally

The secondary market generally

Although application will be made to admit the Securities to trading on the Market, the Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been prepared to meet the investment requirements of limited categories of investors. These types of securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of the Securities.
Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Securities in Euro. This presents certain risks relating to currency or currency unit conversions if an investor’s financial activities are denominated principally in a currency or a currency unit (the “Investor’s Currency”) other than Euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of Euro, or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to Euro would decrease (1) the Investor’s Currency equivalent yield on the Securities, (2) the Investor’s Currency equivalent value of the principal payable on the Securities and (3) the Investor’s Currency equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in the Securities involves the risk that subsequent changes in market interest rates may adversely affect the value of the Securities. Fluctuations in interest rates can affect the market values of, and corresponding levels of capital gains or losses on, fixed rate securities. During periods of rising interest rates, the prices of fixed rate securities, such as the Securities, tend to fall and gains are reduced or losses incurred upon their sale. Therefore, investment in the Securities involves the risk that changes in market interest rates may adversely affect the value of the Securities.

Credit ratings may not reflect all risks

The credit ratings assigned to the Securities may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold Securities and may be revised or withdrawn by the rating agency at any time.

**Issue Price**

100 per cent.

**Status**

The Securities constitute direct, unsecured and subordinated obligations of the Issuer and rank *pari passu* and without any preference among themselves and with any Parity Securities of the Issuer.

**Subordination**

The rights and claims of the Holders will be subordinated to the claims of holders of all Senior Obligations of the Issuer in that if at any time an order is made, or an effective resolution is passed, for the winding-up of the Issuer (otherwise than for the purposes of a solvent winding-up solely for the purposes of a reorganisation, reconstruction, amalgamation or the substitution in place of the Issuer of a “successor in business” (as defined in the Trust Deed) of the Issuer, (A)(x) the terms of which reorganisation, reconstruction, amalgamation or substitution have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed) or (y) which substitution will be effected in accordance with Condition 15; and (B) in each case the terms of which do not provide that the Securities shall thereby become redeemable or repayable in accordance with the Conditions) or an administrator of the Issuer is appointed and such administrator gives notice that it intends to declare and distribute a dividend, the rights and claims of the Holders will be subordinated in accordance with Condition 3(a) thereof. Accordingly without prejudice to the rights of the Trustee and the Holders under the Guarantee, the claims of holders of all Senior Obligations of the Issuer will first have to be satisfied in any winding-up or analogous proceedings before the Holders may expect to obtain any recovery in respect of their Securities and prior thereto Holders will have only limited ability to influence the conduct of such winding-up or analogous proceedings. See “Risk Factors — Risks related to the Securities generally — Limited Remedies”.

**Status of the Guarantee**

The payment obligations of the Guarantor under the Guarantee constitute direct, unsecured and subordinated obligations of the Guarantor and rank *pari passu* and without any preference among themselves and with any Parity Securities of the Guarantor.

**Subordination of the Guarantee**

The rights and claims of the Holders under the Guarantee will be subordinated to the claims of holders of all Senior Obligations of the Guarantor in that if at any time an order is made, or an effective resolution is passed, for the winding-up of the Guarantor (otherwise than for the purposes of a solvent winding-up solely for the purposes of a reorganisation,
reconstruction or amalgamation of the Guarantor, (A) the terms of which reorganisation, reconstruction or amalgamation have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed); and (B) in each case the terms of which do not provide that the Securities shall thereby become redeemable or repayable in accordance with the Conditions) or an administrator of the Guarantor is appointed and such administrator gives notice that it intends to declare and distribute a dividend, the rights and claims of the Holders under the Guarantee will be subordinated in accordance with Condition 4(c) of the Securities. Accordingly without prejudice to the rights of the Trustee and the Holders against the Issuer, the claims of holders of all Senior Obligations of the Guarantor will first have to be satisfied in any winding-up or analogous proceedings before the Holders may expect to obtain from the Guarantor any recovery under the Guarantee in respect of their Securities and prior thereto Holders will have only limited ability to influence the conduct of such winding-up or analogous proceedings. See “Risk Factors — Risks related to the Securities generally — Limited Remedies”.

Termination of the Guarantee

The Trust Deed contains provisions which, for so long as BT Group plc remains Guarantor, permit a termination of the Guarantee at the sole discretion of the Issuer or the Guarantor where: (i) the Issuer or the Guarantor has issued a certificate signed by two directors of the Issuer or the Guarantor certifying that no Event of Default (as defined in the Conditions) is continuing; and (ii) a deed supplemental to the Trust Deed has been entered into discharging the Guarantor’s obligations as the guarantor under the Guarantee.

Optional Interest Deferral

The Issuer may, at its discretion, elect to defer all or part of any Interest Payment (a “Deferred Interest Payment”) which is otherwise scheduled to be paid on an Interest Payment Date (except on the Maturity Date) by giving a Deferral Notice of such election to the Holders, the Trustee, the Registrar and the Principal Paying Agent. Subject as described in “Terms and Conditions of the Securities – Optional Interest Deferral – Mandatory payment of Deferred Interest”, if the Issuer elects not to make all or part of any Interest Payment on an Interest Payment Date, then neither it nor the Guarantor will have any obligation to pay such interest on the relevant Interest Payment Date and any such non-payment of interest will not constitute a default of the Issuer or any other breach of its obligations under the Securities or the Guarantee or for any other purpose.

Deferred Interest may be paid at the option of the Issuer in whole or in part at any time (the “Deferred Interest Settlement Date”) following delivery of a notice to such effect
given by the Issuer to the relevant Holders, the Trustee, the Registrar and the Principal Paying Agent informing them of its election to so settle such Deferred Interest (or part thereof) and specifying the relevant Deferred Interest Settlement Date.

Any Deferred Interest Payment shall itself bear interest (such further interest, together with the Deferred Interest Payment, being “Deferred Interest”), at the Interest Rate prevailing from time to time, from (and including) the date on which (but for such deferral) the Deferred Interest Payment would otherwise have been due to be made to (but excluding) the relevant Deferred Interest Settlement Date or, as appropriate, such other date on which such Deferred Interest Payment is paid in accordance with Condition 6(c), in each case such further interest being compounded on each Interest Payment Date. Non-payment of Deferred Interest shall not constitute a default by the Issuer under the Securities or for any other purpose, unless such payment is required in accordance with Condition 6(c).

**Mandatory Settlement**

Notwithstanding the right to defer payment of interest, the Issuer shall pay any outstanding Deferred Interest, in whole but not in part, on the first to occur of (i) the date which is 10 Business Days following the occurrence of a Compulsory Payment Event, (ii) the next scheduled Interest Payment Date if the Issuer pays interest on the Securities on such date, (iii) the date on which the Securities are redeemed or repaid in accordance with the Conditions on such date, and (iv) the date on which the Securities are substituted for, or where the terms of the Securities are varied so that they become Qualifying Securities, all as more particularly described in “Terms and Conditions of the Securities — Optional Interest Deferral — Mandatory payment of Deferred Interest”.

**Optional Redemption**

The Issuer may redeem all, but not some only, of the Securities on any Business Day in the period commencing on the date three months prior to the First Reset Date to (and including) the First Reset Date and on any Interest Payment Date thereafter at their principal amount together with any accrued and unpaid interest up to (but excluding) the redemption date and any outstanding Deferred Interest.

**Special Event Redemption**

If a Special Event has occurred and is continuing, then the Issuer may redeem at any time all, but not some only, of the Securities at:

(i) in the case of a Rating Capital Event, Tax Deductibility Event or Accounting Event where the relevant date fixed for redemption falls prior to 18 May 2025, 101 per cent. of their principal amount;
(ii) in the case of a Rating Capital Event, Tax Deductibility Event or Accounting Event where the relevant date fixed for redemption falls on or after 18 May 2025, their principal amount; or

(iii) in the case of a Substantial Repurchase Event or a Withholding Tax Event where any such redemption occurs at any time, their principal amount,

in each case together with any accrued and unpaid interest up to (but excluding) the redemption date and any outstanding Deferred Interest.

Substitution or Variation instead of Special Event Redemption

The Issuer may, if an Accounting Event, a Rating Capital Event, a Tax Deductibility Event or a Withholding Tax Event has occurred and is continuing, without the consent of the Holders of the Securities, either (i) substitute all, but not some only, of the Securities for, or (ii) vary the terms of the Securities with the effect that they remain or become, as the case may be, Qualifying Securities, in each case in accordance with Condition 8 thereof and subject, inter alia, to the receipt by the Trustee of the certificate of the directors of the Issuer.

Event of Default

If a default is made by the Issuer or the Guarantor for a period of 14 days or more in relation to the payment of principal or for a period of 28 days or more in respect of any payment of interest (including any Deferred Interest) in respect of the Securities which is due and payable (an "Event of Default"), then the Issuer and/or the Guarantor, as the case may be, shall without notice from the Trustee be deemed to be in default under the Trust Deed and the Securities and the Trustee at its discretion may, and if so requested by the holders of at least one-quarter in principal amount of the Securities then outstanding or if so directed by an Extraordinary Resolution shall (subject to Condition 12(c)) institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor and/or prove in the winding-up or administration of the Issuer and/or the Guarantor and/or claim in the liquidation or administration of the Issuer and/or the Guarantor for such payment.

Additional Amounts

Payments by or on behalf of the Issuer in respect of the Securities or on behalf of the Guarantor in respect of the Guarantee shall be made without withholding or deduction for, or on account of, taxes of the United Kingdom, unless such withholding or deduction is required by law. In the event that any such withholding or deduction is made, additional amounts may be payable by the Issuer, or, as the case may be, the Guarantor, subject to certain exceptions as are more fully described under “Terms and Conditions of the Securities —
The Issuer intends (without thereby assuming a legal obligation), that if it redeems the Securities pursuant to Condition 7(b) or repurchases the Securities, it will so redeem or repurchase the Securities only to the extent the part of the aggregate principal amount of the Securities to be redeemed or repurchased which was assigned equity credit (or such other nomenclature used by S&P from time to time) at the time of the issuance of the Securities does not exceed such part of the net proceeds received by the Issuer or any Subsidiary of the Issuer from the sale or issuance by the Issuer or such Subsidiary to third party purchasers (other than group entities of the Issuer) of securities which are assigned by S&P Global Ratings Europe Limited (“S&P”) “equity credit” (or such similar nomenclature used by S&P from time to time) (but taking into account any changes in hybrid capital methodology or the interpretation thereof since the issuance of the Securities), unless:

(i) the issuer credit rating assigned by S&P to the Issuer is at least “BBB” (or such similar nomenclature then used by S&P) and the Issuer is of the view that such rating would not fall below this level as a result of such redemption or repurchase; or

(ii) in the case of a repurchase, such repurchase is of less than (i) 10 per cent. of the aggregate principal amount of the Securities originally issued in any period of 12 consecutive months or (ii) 25 per cent. of the aggregate principal amount of the Securities originally issued in any period of 10 consecutive years; or

(iii) the Securities are not assigned an “equity credit” (or such similar nomenclature then used by S&P) at the time of such redemption or repurchase; or

(iv) in the case of a repurchase, such repurchase is in an amount necessary to allow the aggregate principal amount of hybrid capital issued by the Issuer remaining outstanding after such repurchase to remain at or below the maximum aggregate principal amount of hybrid capital to which S&P would assign equity content under its prevailing methodology; or

(v) such redemption or repurchase occurs on or
after 18 August 2045.

**Form**
The Securities will be issued in registered form in the denominations of €100,000 and integral multiples of €1,000 in excess thereof. A security certificate (each a “Certificate”) will be issued to each holder in respect of its registered holding of Securities. Each Certificate will be serially numbered with an identifying number which will be recorded on the relevant Certificate and in the register of holders which the Issuer will procure to be kept by Citigroup Global Markets Europe AG as registrar (the “Registrar”) (the “Register”).

**Denominations**
€100,000 and integral multiples of €1,000 in excess thereof.

**Listing and Admission to Trading**
Application has been made to the Financial Conduct Authority for the Securities to be admitted to the Official List and to the London Stock Exchange for the Securities to be admitted to trading on the Market.

**Governing Law of the Securities and the Guarantee**
English law.

**Ratings**
The Securities are expected to be rated BB+ by Standard & Poor’s, Ba1 by Moody’s and BB+ by Fitch. TERMS AND CONDITIONS OF THE SECURITIES

The following, except for paragraphs in italics, are the terms and conditions of the Securities which will be endorsed on the Certificates issued in respect of the Securities.

The issue of the €500,000,000 Capital Securities due 2080 (the “Securities”, which expression shall, unless the context otherwise requires, include any further securities issued pursuant to Condition 20 and forming a single series with the Securities) of British Telecommunications public limited company (the “Issuer”) was authorised by a resolution of the board of directors of the Issuer dated 3 February 2020. The obligations of the Issuer in respect of the Securities and the Trust Deed are guaranteed (such guarantee, the “Guarantee”) by BT Group plc (the “Guarantor”) as described below and in the Trust Deed. The Guarantee was authorised by a resolution of the board of directors of the Guarantor passed on 28 January 2020 and by resolutions of a sub-committee of the board of directors of the Guarantor passed on 7 February 2020. The Securities are constituted by a trust deed (as amended and/or supplemented and/or restated from time to time, the “Trust Deed”) dated 18 February 2020 between the Issuer, the Guarantor and The Law Debenture Trust Corporation p.l.c. (the “Trustee”, which expression shall include all persons for the time being the trustee or trustees under the Trust Deed) as trustee for the holders of the Securities. These terms and conditions (the “Conditions”) include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the forms of the Securities. Copies of (i) the Trust Deed and (ii) a paying agency agreement (as amended and/or supplemented and/or restated from time to time) (the “Paying Agency Agreement”) dated 18 February 2020 relating to the Securities between the Issuer, Citibank N.A., London Branch as principal paying agent (the “Principal Paying Agent”, and together with any additional or successor paying agents, the “Paying Agents”), Citibank N.A., London Branch as calculation agent (the “Calculation Agent”), Citigroup Global Markets Europe AG as registrar (the “Registrar”) and the transfer agents named therein (together with the Registrar, the “Transfer Agents”, which expression includes any successor or additional transfer agents appointed from time to time in connection with the Securities) and the Trustee are available for inspection by prior arrangement during usual business hours at the principal office of the Trustee and at the specified offices of each of the Paying Agents. The holders of the Securities are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed, and are deemed to have notice of those provisions applicable to them of the Paying Agency Agreement.

1. Form, Denomination and Title

(a) Form and Denomination

The Securities are issued in registered form in the denominations of €100,000 and integral multiples of €1,000 in excess thereof. A security certificate (each a “Certificate”) will be issued to each Holder (as defined below) in respect of its registered holding of Securities. Each Certificate will be serially numbered with an identifying number which will be recorded on the relevant Certificate and in the register of Holders which the Issuer will procure to be kept by the Registrar (the “Register”).

(b) Title

Title to the Securities shall pass only by registration in the Register. Except as ordered by a court of competent jurisdiction or as otherwise required by law, the Holder of any Security shall be deemed to be, and may be treated as, its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any interest in it, any writing on the Certificate representing it or the theft or loss of such Certificate) and no person will be liable for so treating the holder. In these Conditions, Holder or holder means the person in whose name a Security is registered in the Register.
(c) **Transfers**

A Security may be transferred by depositing the Certificate issued in respect of that Security, with the form of transfer on the back duly completed and signed, at the specified office of the Registrar or any of the Transfer Agents.

(d) **Delivery of new Certificates**

Each new Certificate to be issued upon transfer of Securities will, within five business days of receipt by the Registrar or the relevant Transfer Agent of the duly completed form of transfer endorsed on the relevant Certificate, be mailed by uninsured mail at the risk of the Holder entitled to the Security to the address specified in the form of transfer. For the purposes of this Condition, **business day** shall mean a day on which banks are open for business in the city in which the specified office of the Registrar or Transfer Agent with whom a Certificate is deposited in connection with a transfer is located.

Where some but not all of the Securities in respect of which a Certificate is issued are to be transferred, a new Certificate in respect of the Securities not so transferred will, within five business days of receipt by the Registrar or the relevant Transfer Agent of the original Certificate, be mailed by uninsured mail at the risk of the Holder of the Securities not so transferred to the address of such Holder appearing on the Register or as specified in the form of transfer.

(e) **Formalities free of charge**

Registration of transfer of Securities will be effected without charge by or on behalf of the Issuer, the Registrar or any Transfer Agent upon payment (or the giving of such indemnity as the Issuer, the Registrar or any Transfer Agent may reasonably require) in respect of any stamp duty, tax or other governmental charges which may be imposed in relation to such transfer.

(f) **Closed periods**

No Holder may require the transfer of a Security to be registered during the period of 15 days ending on the due date for any payment of principal or premium on that Security or in the period falling 15 days prior to any Interest Payment Date.

(g) **Regulations**

All transfers of Securities and entries on the Register will be made subject to such reasonable regulations as the Issuer, the Registrar and the Trustee may from time to time agree (the initial such regulations being set out in Schedule 3 to the Paying Agency Agreement).

2. **Status of the Securities**

The Securities constitute direct, unsecured and subordinated obligations of the Issuer and rank **pari passu** and without any preference or priority among themselves and with any Parity Securities of the Issuer. The rights and claims of the Holders in respect of the Securities against the Issuer are subordinated as described in Condition 3.

3. **Subordination of the Securities**

(a) **General**

In the event of:
(i) an order being made, or an effective resolution being passed, for the winding-up of the Issuer (except, in any such case, a solvent winding-up solely for the purposes of a reorganisation, reconstruction or amalgamation or the substitution in place of the Issuer of a “successor in business” (as defined in the Trust Deed) of the Issuer, (A)(x) the terms of which reorganisation, reconstruction, amalgamation or substitution have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed) or (y) which substitution will be effected in accordance with Condition 15; and (B) in each case the terms of which do not provide that the Securities shall thereby become redeemable or repayable in accordance with these Conditions); or

(ii) an administrator of the Issuer being appointed and such administrator giving notice that it intends to declare and distribute a dividend,

there shall be payable by the Issuer in respect of each Security, such amounts, if any, as would have been payable to the Holder of such Security if, on the day prior to the commencement of the winding-up or such administration, as the case may be, and thereafter, such Holder were the holder of one of a class of preference shares in the capital of the Issuer (“Notional Preference Shares of the Issuer”) having an equal right to a return of assets in the winding-up or such administration, as the case may be, and so ranking pari passu with, the holders of that class or classes of preference shares (if any) which have a preferential right to a return of assets in the winding-up over, and so rank ahead of, the holders of the ordinary share capital of the Issuer and any other obligations of the Issuer, issued directly or indirectly by it, which rank, or are expressed to rank, pari passu with such ordinary shares, but ranking junior to the claims of holders of all Senior Obligations of the Issuer (except as otherwise provided by mandatory provisions of law), on the assumption that the amounts that such Holder were entitled to receive in respect of each Notional Preference Share of the Issuer on a return of assets in such winding-up or such administration, as the case may be, were, in the case of a Security and its Holder, an amount equal to the principal amount of the relevant Security and any accrued and unpaid interest (including any accrued but unpaid Deferred Interest) (and, in the case of an administration, on the assumption that shareholders were entitled to claim and recover in respect of their shares to the same degree as in a winding-up). For the purpose of construing the provisions of the Guarantee and the Guarantor’s payment obligations in respect thereof, the latter amounts shall be treated as due and payable by the Issuer on the date such order is made or such resolution is passed or notice is given, as the case may be and, consequently, a claim under the Guarantee in respect of such amount may be made on, or at any time after, such date.

Accordingly, without prejudice to the rights of the Trustee and the Holders under the Guarantee, the claims of holders of all Senior Obligations of the Issuer will first have to be satisfied in any winding-up or analogous proceedings of the Issuer before the Holders may expect to obtain from the Issuer any recovery in respect of their Securities and prior thereto any Holder will have only limited ability to influence the conduct of such winding-up or analogous proceedings. See “Risk Factors – Risks related to the Securities generally – Limited Remedies”.

(b) Set-off

Subject to applicable law, no Holder may exercise, claim or plead any right of set-off, compensation or retention in respect of any amount owed to it by the Issuer in respect of, or arising under or in connection with the Securities and each Holder shall, by virtue of his holding of any Security, be deemed to have waived all such rights of set-off, compensation or retention.

4. Guarantee

(a) Guarantee
The payment of the principal, premium and interest in respect of the Securities has been guaranteed by the Guarantor pursuant to the Guarantee.

The Guarantee may be terminated by the Guarantor or the Issuer at any time as described in the Trust Deed and Condition 17.

(b) Status of the Guarantee

The obligations of the Guarantor under the Guarantee constitute direct, unsecured and subordinated obligations of the Guarantor and rank pari passu and without any preference or priority among themselves and with any Parity Securities of the Guarantor. The rights and claims of the Holders in respect of the Guarantee against the Guarantor are subordinated as described in Condition 4(c).

(c) Subordination of the Guarantee

In the event of:

(i) an order being made, or an effective resolution being passed, for the winding-up of the Guarantor (except, in any such case, a solvent winding-up solely for the purposes of a reorganisation, reconstruction or amalgamation of the Guarantor (A) the terms of which reorganisation, reconstruction or amalgamation have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed); and (B) in each case the terms of which do not provide that the Securities shall thereby become redeemable or repayable in accordance with these Conditions); or

(ii) an administrator of the Guarantor being appointed and such administrator giving notice that it intends to declare and distribute a dividend,

there shall be payable by the Guarantor under the Guarantee in respect of each Security, such amounts, if any, as would have been payable to the Holder of such Security if, on the day prior to the commencement of the winding-up or such administration, as the case may be, and thereafter, such Holder were the holder of one of a class of preference shares in the capital of the Guarantor ("Notional Preference Shares of the Guarantor") having an equal right to a return of assets in the winding-up or such administration, as the case may be, and so ranking pari passu with, the holders of that class or classes of preference shares (if any) which have a preferential right to a return of assets in the winding-up over, and so rank ahead of, the holders of the ordinary share capital of the Guarantor and any other obligations of the Guarantor, issued directly or indirectly by it, which rank, or are expressed to rank, pari passu with such ordinary shares, but ranking junior to the claims of holders of all Senior Obligations of the Guarantor (except as otherwise provided by mandatory provisions of law), on the assumption that the amounts that such Holder were entitled to receive in respect of each Notional Preference Share of the Guarantor on a return of assets in such winding-up or such administration, as the case may be, were, in the case of a Security and its Holder, an amount equal to the principal amount of the relevant Security and any accrued and unpaid interest (including any accrued but unpaid Deferred Interest) (and, in the case of an administration, on the assumption that shareholders were entitled to claim and recover in respect of their shares to the same degree as in a winding-up).

Accordingly, without prejudice to the rights of the Trustee, the Holders against the Issuer, the claims of holders of all Senior Obligations of the Guarantor will first have to be satisfied in any winding-up or analogous proceedings of the Guarantor before the Holders may expect to obtain from the Guarantor any recovery pursuant to the Guarantee in respect of their Securities, as the case may be, under the Guarantee and prior thereto any Holder will have only limited ability to influence the conduct of such winding-up or analogous proceedings. See “Risk Factors – Risks related to the Securities generally – Limited Remedies”.

30
(d) **Set-off**

Subject to applicable law, no Holder may exercise, claim or plead any right of set-off, compensation or retention in respect of any amount owed to it by the Guarantor in respect of, or arising under or in connection with the Securities or the Guarantee and each Holder shall, by virtue of his holding of any Security, be deemed to have waived all such rights of set-off, compensation or retention.

5. **Interest Payments**

(a) **Interest Payment Dates**

The Securities bear interest on their principal amount at the applicable Interest Rate from (and including) 18 February 2020 (the “Issue Date”) up to (but excluding) the Maturity Date in accordance with the provisions of this Condition 5.

Subject to Condition 6, interest shall be payable on the Securities annually in arrear on 18 August in each year (each an “Interest Payment Date”) and ending on the Maturity Date, as provided in this Condition 5, except that the first payment of interest, to be made on 18 August 2020, will be in respect of the period from (and including) the Issue Date to (but excluding) 18 August 2020.

(b) **Interest Accrual**

The Securities (and any unpaid amounts thereon) will cease to bear interest from (and including) the date of redemption thereof pursuant to the relevant paragraph of Condition 7 or the date of substitution or variation thereof pursuant to Condition 8, as the case may be, unless, upon due surrender (where such surrender is required), payment of all unpaid amounts in respect of the Securities is not made, in which event interest shall continue to accrue in respect of the principal amount of, and any other unpaid amounts on, the Securities, both before and after judgment, and shall be payable, as provided in these Conditions up to (but excluding) the Relevant Date.

Save as provided in Condition 5(c), where it is necessary to compute an amount of interest in respect of any Security for a period which is less than or equal to a complete year, such interest shall be calculated on the basis of the actual number of days in the period from (and including) the most recent Interest Payment Date (or if none, the Issue Date) to (but excluding) the relevant payment date divided by the actual number of days in the Interest Period in which the relevant period falls (including the first such day but excluding the last) (or, in respect of interest accruing during the first Interest Period, the period from (and including) 18 August 2019 to (but excluding) 18 August 2020) (“day-count fraction”). Where it is necessary to compute an amount of interest in respect of any Security for a period of more than one year, such interest shall be the aggregate of the interest computed in respect of a full year plus the interest computed in respect of the remaining period calculated in the manner as aforesaid.

Interest in respect of any Security shall be calculated per €1,000 in principal amount thereof (the “Calculation Amount”). The amount of interest calculated per Calculation Amount for any period shall, save as provided in Condition 5(c), be equal to the product of the relevant Interest Rate, the Calculation Amount and the day-count fraction for the relevant period, rounding the resulting figure to the nearest cent (half a cent being rounded upwards). The amount of interest payable in respect of each Security shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the denomination of such Security without any further rounding.

(c) **Initial Interest Rate**

The Interest Rate in respect of each Interest Period ending on or before the First Reset Date is 1.874 per cent. per annum (the “Initial Interest Rate”). The Interest Payment in respect of each such Interest Period will amount to €18.74 per Calculation Amount. The first payment of interest, to be made on 18
August 2020, will be in respect of the period from (and including) the Issue Date to (but excluding) 18
August 2020 and will amount to €9.32 per Calculation Amount.

(d) **Reset Interest Rates**

The Interest Rate in respect of each Interest Period falling in a Reset Period shall be the aggregate of
the relevant Margin and the relevant 5-year Swap Rate for such Reset Period, all as determined by the
Calculation Agent (each a “**Reset Interest Rate**”).

(e) **Determination of Reset Interest Rates and Calculation of Interest Amounts**

The Calculation Agent will, as soon as practicable after 11.00 hours (Central European Time) on each
Reset Interest Determination Date, determine the Reset Interest Rate in respect of the relevant Reset
Period and calculate the amount of interest payable in respect of a Calculation Amount on each Interest
Payment Date falling in the period from (but excluding) such relevant Reset Date to (and including) the
next Reset Date (the “**Interest Amount**”).

(f) **Publication of Reset Interest Rates and Interest Amounts**

Unless the Securities are to be redeemed on or prior to the next following Reset Date, the Issuer (failing
which the Guarantor) shall cause notice of each Reset Interest Rate and the related Interest Amount per
Calculation Amount to be given to the Trustee, the Registrar, the Paying Agents, any stock exchange
on which the Securities are for the time being listed or admitted to trading and, in accordance with
Condition 19, the Holders, in each case as soon as practicable after its determination but in any event
not later than the fourth Business Day thereafter.

(g) **Calculation Agent and Reference Banks**

Unless the Securities are to be redeemed on or prior to the First Reset Date, the Issuer will, no later
than fourteen days before the first Reset Interest Determination Date, appoint and thereafter maintain a
Calculation Agent.

The Issuer may, with the prior written approval of the Trustee, from time to time replace the
Calculation Agent with another independent financial institution. If the Calculation Agent is unable or
unwilling to continue to act as the Calculation Agent or fails to determine a Reset Interest Rate or
calculate the related Interest Amount or effect the required publication thereof (in each case as required
pursuant to these Conditions), the Issuer shall forthwith appoint another independent financial
institution approved in writing by the Trustee to act as such in the Calculation Agent’s place. The
Calculation Agent may not resign its duties or be removed without a successor having been appointed
as aforesaid.

(h) **Determinations of Calculation Agent Binding**

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given,
expressed, made or obtained for the purposes of this Condition 5 by the Calculation Agent shall (in the
absence of manifest error) be binding on the Issuer, the Guarantor, the Calculation Agent, the Trustee,
the Registrar, the Transfer Agents, the Paying Agents and all Holders and (in the absence as aforesaid)
no liability to the Holders, the Issuer or the Guarantor shall attach to the Calculation Agent in
connection with the exercise or non-exercise by it of any of its powers, duties and discretions.

(i) **Benchmark Event**

(i) Notwithstanding the provisions above in this Condition 5, if the Issuer determines that a
Benchmark Event has occurred when any Reset Interest Rate (or any component part thereof)
remains to be determined by reference to such Original Reference Rate, the Issuer shall use its
reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, to advise the Issuer in determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(i)(iii)) and, in either case, an Adjustment Spread and any Benchmark Amendments (in accordance with Condition 5(i)(iv)).

In making such determination and any other determination pursuant to this Condition 5(i), the Issuer shall act in good faith and in a commercially reasonable manner. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Trustee, the Agents or the Holders for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition 5(i).

If the Issuer fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(i)(i) prior to the relevant Reset Interest Determination Date in respect of a relevant Reset Period, the 5-year Swap Rate applicable to the next succeeding Reset Period shall be equal to the last annualised mid-swap rate with a term of five years displayed on the Reset Screen Page as determined by the Calculation Agent in consultation with the Issuer. For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Reset Period only and any subsequent Reset Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 5(i).

(ii) If the Issuer, following consultation with the Independent Adviser or acting alone, as the case may be pursuant to Condition 5(i)(i) above, determines that:

(A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Reset Interest Rate (or the relevant component part thereof) for all future payments of interest on the Securities from the end of the then current Reset Period onwards (subject to the operation of this Condition 5(i)); or

(B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Reset Interest Rate (or the relevant component part thereof) for all future payments of interest on the Securities from the end of the then current Reset Period onwards (subject to the operation of this Condition 5(i)).

(iii) The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(iv) If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(i) and the Issuer, following consultation with the Independent Adviser, determines (i) that amendments to these Conditions, the Paying Agency Agreement and/or the Trust Deed are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread (such amendments, the “Benchmark Amendments”) and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(i)(v), without any requirement for the consent or approval of Holders, vary these Conditions, the Paying Agency Agreement and/or the Trust Deed to give effect to such Benchmark Amendments with effect from the date specified in such notice.

At the request of the Issuer, but subject to receipt by the Trustee and the Principal Paying Agent of a certificate signed by two directors of the Issuer pursuant to Condition 5(i)(v), the
Trustee and the Principal Paying Agent shall (at the expense and direction of the Issuer), without any requirement for the consent or approval of the Holders be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, inter alia, by the execution of a deed supplemental to or amending the Trust Deed and/or the Paying Agency Agreement) and the Trustee and the Principal Paying Agent shall not be liable to the Holders or to any person for any consequences thereof irrespective of whether any such modification is or may be materially prejudicial to the interests of any such Holder or other person, provided that the Trustee and the Principal Paying Agent shall not be obliged so to concur if in the opinion of the Trustee or the Principal Paying Agent (as applicable) doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or any documents to which it is a party (including, for the avoidance of doubt, any supplemental trust deed or any supplemental paying agency agreement) in any way.

In connection with any such variation in accordance with this Condition 5(i)(iv), the Issuer shall comply with the rules of any stock exchange on which the Securities are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 5(i), no Successor Rate or Alternative Rate will be adopted, nor any Adjustment Spread applied, nor will any Benchmark Amendments be made, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to cause a Rating Capital Event to occur.

(v) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 5(i) will be notified promptly by the Issuer to the Trustee, the Agents and, in accordance with Condition 19, the Holders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Trustee and the Agents of the same, the Issuer shall deliver to the Trustee and the Agents a certificate signed by two directors of the Issuer:

(A) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate, (iii) the applicable Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), in each case as determined in accordance with the provisions of this Condition 5(i); and

(B) certifying that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread.

The Trustee and the Agents shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) and without prejudice to the Trustee’s and the Agents’ ability to rely on such certificate as aforesaid) be binding on the Issuer, the Guarantor, the Trustee, the Agents, and the Holders.

(vi) Without prejudice to the obligations of the Issuer under Condition 5(i)(i), (ii), (iii) and (iv), the Original Reference Rate and the fallback provisions provided for in Condition 5(d) and the related definitions will continue to apply unless and until the Issuer determines that a
Benchmark Event has occurred and the Trustee and the Agents have been notified of the Successor Rate or the Alternative Rate (as the case may be), and the Adjustment Spread and any Benchmark Amendments, in accordance with Condition 5(i)(v).

(vii) As used in this Condition 5(i):

“Adjustment Spread” means either (a) a spread (which may be positive, negative or zero) or (b) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

(a) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate)

(b) the Issuer, following consultation with the Independent Adviser or acting alone, as the case may be pursuant to Condition 5(i)(i) above, determines is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or (if the Issuer determines that no such spread is customarily applied)

(c) the Issuer, following consultation with the Independent Adviser or acting alone, as the case may be pursuant to Condition 5(i)(i) above, determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

“Alternative Rate” means an alternative benchmark or screen rate which the Issuer, following consultation with the Independent Adviser, determines is customarily applied in international debt capital markets transactions for the purposes of determining resettable rates of interest (or the relevant component part thereof) in euro.

“Benchmark Amendments” has the meaning given to it in Condition 5(i)(iv).

“Benchmark Event” means:

(a) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or

(b) a public statement by the administrator of the Original Reference Rate that it has ceased or that it will cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or

(c) a public statement by the supervisor of the administrator of the Original Reference Rate, that the Original Reference Rate has been or will be permanently or indefinitely discontinued; or

(d) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally or in respect of the Securities; or

(e) a public statement by the regulatory supervisor for the administrator of the Original Reference Rate announcing that the Original Reference Rate is no longer representative of its underlying market or may no longer be used; or
(f) it has or will become unlawful for any Agent or the Issuer to calculate any payments due to be made to any Holders using the Original Reference Rate,

provided that in the case of sub-paragraphs (b), (c) and (d), the Benchmark Event shall be deemed to occur on the date of the cessation of publication of the Original Reference Rate, the discontinuation of the Original Reference Rate, or the prohibition of use of the Original Reference Rate, as the case may be, and not the date of the relevant public statement.

“Independent Adviser” means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer at its expense under Condition 5(i)(i) and notified in writing to the Trustee.

“Original Reference Rate” means the originally specified benchmark or screen rate (as applicable) used to determine the Reset Interest Rate (or any component part thereof) on the Securities (or, if applicable, any other Successor Rate or Alternative Rate (or any component part thereof) determined and applicable to the Securities pursuant to the earlier application of Condition 5(i)).

“Relevant Nominating Body” means, in respect of a benchmark or screen rate (as applicable):

(a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or

(b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof.

“Successor Rate” means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

6. Optional Interest Deferral

(a) Deferral of Interest Payments

The Issuer may, at its discretion, elect to defer, in whole or in part, payment of any Interest Payment (any such deferred Interest Payment, a “Deferred Interest Payment”) which is otherwise scheduled to be paid on an Interest Payment Date (except on the Maturity Date) by giving notice (a “Deferral Notice”) of such election to the Holders in accordance with Condition 19, the Trustee, the Registrar and the Principal Paying Agent not more than 30 nor fewer than seven Business Days prior to the relevant Interest Payment Date. Subject to Condition 6(c), if the Issuer elects to defer (in whole or in part) payment of any Interest Payment on an Interest Payment Date in accordance with this Condition 6(a), then neither it nor the Guarantor will have any obligation to pay such interest on the relevant Interest Payment Date and any such non-payment of interest will not constitute a default or any other breach of its obligations under the Securities or the Guarantee or for any other purpose.

Any Deferred Interest Payment shall itself bear interest (such further interest, together with the Deferred Interest Payment, being “Deferred Interest”), at the Interest Rate prevailing from time to time, from (and including) the date on which (but for such deferral) the relevant Deferred Interest Payment would otherwise have been due to be made to (but excluding) the relevant Deferred Interest Settlement Date (as defined below) or, as appropriate, such other date on which such Deferred Interest
Payment is paid in accordance with Condition 6(c), in each case such further interest being compounded on each Interest Payment Date.

Non-payment of Deferred Interest (or part thereof) shall not constitute a default by the Issuer or the Guarantor under the Securities or the Guarantee or for any other purpose, unless such payment is required in accordance with Condition 6(c).

(b) **Optional payment of Deferred Interest**

Deferred Interest may be paid at the option of the Issuer in whole or in part at any time (the “Deferred Interest Settlement Date”) following delivery of a notice to such effect given by the Issuer to the Holders in accordance with Condition 19, the Trustee, the Registrar and the Principal Paying Agent not more than 30 nor fewer than 7 Business Days prior to the relevant Deferred Interest Settlement Date informing them of its election to so settle such Deferred Interest (or part thereof) and specifying the relevant Deferred Interest Settlement Date.

(c) **Mandatory payment of Deferred Interest**

Notwithstanding the preceding provisions of this Condition 6, the Issuer shall pay any accrued but unpaid Deferred Interest, in whole but not in part, on the first to occur of the following dates:

(i) the date which is 10 Business Days following the occurrence of a Compulsory Payment Event;

(ii) the next scheduled Interest Payment Date if the Issuer pays interest on the Securities on such date;

(iii) the date on which the Securities are redeemed or repaid in accordance with Condition 3, Condition 4, any paragraph of Condition 7 or Condition 12; and

(iv) the date on which the Securities are substituted for, or where the terms of the Securities are varied so that they become, Qualifying Securities in accordance with Condition 8.

7. **Redemption**

(a) **Final Redemption Date**

Unless previously repaid, redeemed, purchased and cancelled or (pursuant to Condition 8) substituted as provided in these Conditions, the Securities will be redeemed on the Maturity Date at 100 per cent. of their principal amount together with any accrued and unpaid interest up to (but excluding) the Maturity Date (including any accrued but unpaid Deferred Interest).

(b) **Issuer’s Call Option**

The Issuer may, having given not fewer than 15 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable), redeem all, but not some only, of the Securities on any Optional Redemption Date at 100 per cent. of their principal amount together with any accrued and unpaid interest up to (but excluding) the redemption date (including any accrued but unpaid Deferred Interest). Upon the expiry of such notice, the Issuer shall redeem the Securities.

(c) **Redemption for Taxation Reasons**

If a Tax Deductibility Event or a Withholding Tax Event has occurred and is continuing, then the Issuer may, having given not fewer than 15 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable) and subject to Condition 9, redeem all, but not some only, of the Securities at any time at
100 per cent. of their principal amount in the case of a Withholding Tax Event, or, in the case of a Tax Deductibility Event, (i) 101 per cent. of their principal amount where such redemption occurs before 18 May 2025, or (ii) 100 per cent. of their principal amount where such redemption occurs on or after 18 May 2025, together, in each case, with any accrued and unpaid interest up to (but excluding) the redemption date (including any accrued but unpaid Deferred Interest). Upon the expiry of such notice, the Issuer shall redeem the Securities.

(d) **Redemption for Rating Reasons**

If a Rating Capital Event has occurred and is continuing, then the Issuer may, having given not fewer than 15 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable) and subject to Condition 9, redeem all, but not some only, of the Securities at any time at (i) 101 per cent. of their principal amount, where such redemption occurs before 18 May 2025, or (ii) 100 per cent. of their principal amount, where such redemption occurs on or after 18 May 2025, together, in each case, with any accrued and unpaid interest up to (but excluding) the redemption date (including any accrued but unpaid Deferred Interest). Upon the expiry of such notice, the Issuer shall redeem the Securities.

(e) **Redemption Following Substantial Repurchase**

If a Substantial Repurchase Event has occurred, then the Issuer may, having given not fewer than 15 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable) and subject to Condition 9, redeem all, but not some only, of the Securities at any time at 100 per cent. of their principal amount, together with any accrued and unpaid interest up to (but excluding) the redemption date (including any accrued but unpaid Deferred Interest). Upon the expiry of such notice, the Issuer shall redeem the Securities.

(f) **Redemption for Accounting Reasons**

If an Accounting Event has occurred and is continuing, then the Issuer may, having given not fewer than 15 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable) and subject to Condition 9, redeem all, but not some only, of the Securities at any time at (i) 101 per cent. of their principal amount, where such redemption occurs before 18 May 2025, or (ii) 100 per cent. of their principal amount, where such redemption occurs on or after 18 May 2025, together, in each case, with any accrued and unpaid interest up to (but excluding) the redemption date (including any accrued but unpaid Deferred Interest). Upon the expiry of such notice, the Issuer shall redeem the Securities.

The period during which the Issuer may notify the redemption of the Securities as a result of the occurrence of an Accounting Event shall start on the Accounting Event Adoption Date. For the avoidance of doubt, such period shall include any transitional period between the Accounting Event Adoption Date and the date on which it comes into effect.

8. **Substitution or Variation**

If a Rating Capital Event, an Accounting Event, a Tax Deductibility Event or a Withholding Tax Event has occurred and is continuing, then the Issuer may, subject to Condition 9 (without any requirement for the consent or approval of the Holders) and subject to its having satisfied the Trustee immediately prior to the giving of any notice referred to herein that the provisions of this Condition 8 and Condition 9 have been complied with, and having given not fewer than 30 nor more than 45 days’ notice to the Trustee, the Registrar, the Principal Paying Agent and, in accordance with Condition 19, the Holders (which notice shall be irrevocable), at any time either (i) substitute all, but not some only, of the

38
Securities for, or (ii) vary the terms of the Securities with the effect that they remain or become, as the case may be, Qualifying Securities, and the Trustee shall (subject to the following provisions of this Condition 8 and subject to the receipt by it of the certificate of the directors of the Issuer referred to in Condition 9 below) agree to such substitution or variation but without further responsibility or liability on the part of the Trustee.

Upon expiry of such notice, the Issuer shall either vary the terms of or, as the case may be, substitute the Securities in accordance with this Condition 8.

In connection therewith, any accrued but unpaid Deferred Interest will be satisfied in full in accordance with the provisions of Condition 6(c).

The Trustee shall, without any requirement for the consent or approval of the Holders, execute any documents necessary to effect the substitution of the Securities for, or the variation of the terms of the Securities so that they remain, or as the case may be, become, Qualifying Securities, provided that the Trustee shall not be obliged to execute any such documents if, in the Trustee’s opinion, doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or any documents to which it is a party in any way. If the Trustee does not execute any necessary documents as provided above, the Issuer may redeem the Securities as provided in Condition 7.

In connection with any substitution or variation in accordance with this Condition 8, the Issuer and the Guarantor shall comply with the rules of any stock exchange on which the Securities are for the time being listed or admitted to trading.

Any such substitution or variation in accordance with the foregoing provisions shall not be permitted if any such substitution or variation would give rise to a Special Event (other than a Substantial Repurchase Event) with respect to the Securities or the Qualifying Securities.

9. **Preconditions to Special Event Redemption, Substitution and Variation**

Prior to the publication of any notice of redemption pursuant to Condition 7 (other than redemption pursuant to Condition 7(b)) or any notice of substitution or variation pursuant to Condition 8, the Issuer shall deliver to the Trustee (i) a certificate signed by two directors of the Issuer stating that the relevant requirement or circumstance giving rise to the right to redeem, substitute or vary is satisfied, and where the relevant Special Event requires measures reasonably available to the Issuer to be taken, the relevant Special Event cannot be avoided by the Issuer or, as the case may be, the Guarantor taking such measures and (ii) in the case of redemption pursuant to Condition 7(c) only, an opinion from a nationally recognised law firm or other tax adviser in the United Kingdom experienced in such matters to the effect that the relevant requirement or circumstance giving rise to such right of redemption applies. In relation to a substitution or variation pursuant to Condition 8, such certificate shall also include further certifications that the terms of the Qualifying Securities are not materially less favourable to Holders than the terms of the Securities, that such determination was reached by the Issuer, acting reasonably, in consultation with an independent investment bank or counsel of international standing and that the criteria specified in paragraphs (a) to (j) of the definition of Qualifying Securities will be satisfied by the Qualifying Securities upon issue. The Trustee shall be entitled to accept such certificate without liability to any person and without any further inquiry as sufficient evidence of the satisfaction of the conditions precedent set out in such paragraphs, in which event it shall be conclusive and binding on the Holders.
Any redemption of the Securities in accordance with Condition 7 or any substitution or variation of the Securities in accordance with Condition 8 shall be conditional on all accrued but unpaid Deferred Interest being paid in full in accordance with the provisions of Condition 6 on or prior to the date of such redemption, substitution or, as the case may be, variation, together with any accrued and unpaid interest up to (but excluding) such redemption, substitution or, as the case may be, variation date.

The Trustee is under no obligation to ascertain whether any Special Event or any event which could lead to the occurrence of, or could constitute, any such Special Event has occurred and, until it shall have received express written notice pursuant to the Trust Deed to the contrary, the Trustee may assume that no such Special Event or such other event has occurred.

10. Purchases and Cancellation

(a) Purchases

Each of the Issuer, the Guarantor and any of their respective Subsidiaries may at any time purchase or procure others to purchase beneficially for its account Securities in any manner and at any price.

(b) Cancellation

All Securities redeemed or substituted by the Issuer pursuant to Condition 7 or 8, as the case may be, will forthwith be cancelled. All Securities purchased by or on behalf of the Issuer, the Guarantor or any of their respective Subsidiaries may, at the option of the Issuer or the Guarantor, as the case may be, be held, reissued, resold or surrendered for cancellation to a Paying Agent. Securities held by the Issuer, the Guarantor and/or any of their respective Subsidiaries shall not entitle the holder to vote at any meeting of Holders and shall not be deemed to be outstanding for the purposes of calculating quorums at meetings of Holders or for any other purpose specified in Condition 15.

11. Payments

(a) Method of Payment

Payments of principal, premium and interest in respect of each Security will be made by transfer to the registered account of the Holder or by euro cheque drawn on a bank (nominated in writing to the Registrar by the Holder) that processes payments in euro mailed to the registered address of the Holder if it does not have a registered account, provided that the nomination is received by the Registrar not later than 10 Business Days before any date on which payment is scheduled. Payments of principal and premium and payment of interest (including, for the avoidance of doubt, Deferred Interest) due otherwise than on an Interest Payment Date (other than payments due pursuant to Condition 6(a)) will only be made against surrender of the relevant Certificate at the specified office of any of the Paying Agents or the Registrar. Interest on the Securities due on an Interest Payment Date will be paid to the holder shown on the Register at the close of business on the date (the “record date”) being the fifteenth day before the due date for the payment of interest.

For the purposes of this Condition 11, a Holder’s registered account means the euro account maintained by or on behalf of it with a bank that processes payments in euro in a city in which banks have access to the Target System, details of which appear on the Register at the close of business on the relevant record date, and a Holder’s registered address means its address appearing on the Register at that time.

If the amount of principal being paid upon surrender of the relevant Certificate is less than the outstanding principal amount of such Certificate, the Registrar will annotate the Register with the amount of principal so paid and will (if so requested by the Issuer or a Holder) issue a new Certificate with a principal amount equal to the remaining unpaid outstanding principal amount. If the amount of
interest being paid is less than the amount then due, the Registrar will annotate the Register with the amount of interest so paid.

(b)  

Payments Subject to Fiscal Laws

Without prejudice to the terms of Condition 13, all payments made in accordance with these Conditions shall be made subject to any fiscal or other laws and regulations applicable in the place of payment. No commissions or expenses shall be charged to the Holders in respect of such payments.

(c)  

Payments on Business Days

If any date for payment in respect of any Security is not a business day, the Holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this Condition 11, business day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the place in which the specified office of the Registrar is located and a day on which the Target System is open.

12.  

Events of Default

(a)  

Proceedings

If a default is made by the Issuer or the Guarantor for a period of 14 days or more in relation to the payment of principal or for a period of 28 days or more in respect of any payment of interest (including any Deferred Interest) in respect of the Securities which is due and payable (an “Event of Default”), then the Issuer and/or the Guarantor, as the case may be, shall without notice from the Trustee be deemed to be in default under the Trust Deed and the Securities and the Trustee at its discretion may, and if so requested by the holders of at least one-quarter in principal amount of the Securities then outstanding or if so directed by an Extraordinary Resolution shall (subject to Condition 12(c)) institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor and/or prove in the winding-up or administration of the Issuer and/or the Guarantor and/or claim in the liquidation or administration of the Issuer and/or the Guarantor for such payment.

(b)  

Enforcement

The Trustee may at its discretion (subject to Condition 12(c)) and without further notice institute such actions, steps or proceedings against the Issuer and/or the Guarantor, as the case may be, as it may think fit to enforce any term or condition binding on the Issuer and/or the Guarantor, as the case may be, under the Trust Deed or the Securities but in no event shall the Issuer or the Guarantor, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

(c)  

Entitlement of Trustee

The Trustee shall not be bound to take any of the actions referred to in Condition 12(a) or 12(b) above against the Issuer and/or the Guarantor to enforce the terms of the Trust Deed or the Securities or any other action or step unless (i) it shall have been so requested by an Extraordinary Resolution of the Holders or in writing by the Holders of at least one-quarter in principal amount of the Securities then outstanding and (ii) it shall have been indemnified and/or secured and/or prefunded to its satisfaction.

(d)  

Right of Holders

No Holder shall be entitled to proceed directly against the Issuer and/or the Guarantor or to institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor and/or prove in the winding-up or administration of the Issuer and/or the Guarantor and/or claim in the liquidation or administration of the Issuer and/or the Guarantor unless the Trustee, having become so bound to
proceed or being able to prove in such winding-up or claim in such liquidation, fails or is unable to do so within a reasonable period and such failure or inability shall be continuing, in which case the Holder shall have only such rights against the Issuer and/or the Guarantor as those which the Trustee is entitled to exercise as set out in this Condition 12.

(e) Extent of Holders’ remedy

No remedy against the Issuer and/or the Guarantor, other than as referred to in this Condition 12, shall be available to the Trustee (on behalf of the Holders) or to the Holders, whether for the recovery of amounts owing in respect of the Securities or under the Trust Deed (including the Guarantee) or in respect of any breach by the Issuer and/or the Guarantor of any of its/their other obligations under or in respect of the Securities or the Trust Deed.

13. Taxation

All payments of principal, premium and interest by or on behalf of the Issuer in respect of the Securities or by or on behalf of the Guarantor in respect of the Guarantee shall be made without withholding or deduction for, or on account of, any present or future taxes or duties of whatever nature ("Taxes") imposed or levied by or on behalf of the United Kingdom or any political subdivision of the United Kingdom or any authority thereof or therein having power to tax, unless such withholding or deduction is compelled by law. In that event, the Issuer or, as the case may be, the Guarantor shall pay such additional amounts ("Additional Amounts") as shall result in receipt by the Holders of such amounts as would have been receivable in respect of the Securities had no such withholding or deduction been made, except that no such Additional Amounts shall be payable in respect of any Security:

(i) held by or on behalf of, a person who is liable to such taxes or duties in respect of such Security by reason of his having some connection with the United Kingdom other than the mere holding of such Security; or

(ii) to a person who would not be liable or subject to such deduction or withholding by making a declaration of non-residence or other claim for exemption to a tax authority; or

(iii) in respect of which the Certificate representing it is surrendered for payment (where such surrender is required) more than 30 days after the Relevant Date except to the extent that the Holder would have been entitled to such additional amounts on surrendering the same for payment on such 30th day (assuming that day to have been a day on which surrender for payment is permitted by Condition 11(c)); or

(iv) in respect of which the Certificate representing it is surrendered for payment (where such surrender is required) by or on behalf of a Holder who would have been able to avoid such withholding or deduction by satisfying any statutory or procedural requirements (including, without limitation, the provision of information).

Notwithstanding any other provision of these Conditions or the Trust Deed, any amounts to be paid on the Securities by or on behalf of the Issuer or the Guarantor will be paid net of any deduction or withholding imposed or required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any fiscal or regulatory legislation, rules or practices implementing such an intergovernmental agreement) (any such withholding or deduction, a “FATCA Withholding”). None
of the Issuer, the Guarantor nor any other person will be required to pay any additional amounts in respect of FATCA Withholding.

References in these Conditions to principal, premium, Interest Payments, Deferred Interest and/or any other amount in respect of interest shall be deemed to include any Additional Amounts which may become payable pursuant to the foregoing provisions or any undertakings given in addition thereto or in substitution therefor pursuant to the Trust Deed.

14. Prescription

Claims against the Issuer and/or the Guarantor in respect of Securities or under the Guarantee will become void unless surrendered for payment (where such surrender is required) or made, as the case may be, within a period of 10 years (in respect of claims relating to principal and premium) and five years (in respect of claims relating to interest) from the Relevant Date relating thereto.

15. Meetings of Holders, Modification, Waiver and Substitution

The Trust Deed contains provisions for convening meetings of Holders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Trust Deed) of a modification of any of these Conditions or any provisions of the Trust Deed. Such a meeting may be convened by Holders holding not less than 10 per cent. in principal amount of the Securities for the time being outstanding.

The quorum at any such meeting for passing an Extraordinary Resolution shall be one or more persons holding or representing not less than 50 per cent. in principal amount of the Securities for the time being outstanding, or at any adjourned meeting one or more persons being or representing Holders whatever the principal amount of the Securities so held or represented, except that at any meeting the business of which includes the modification of certain of these Conditions (including, inter alia, the provisions regarding subordination referred to in Condition 3 and/or Condition 4, the terms concerning currency and due dates for payment of principal, any applicable premium or Interest Payments in respect of the Securities and reducing or cancelling the principal amount of any Securities, any applicable premium or the Interest Rate) and certain other provisions of the Trust Deed, the quorum shall be one or more persons holding or representing not less than two-thirds, or at any adjourned such meeting one or more persons holding or representing not less than one-third, in principal amount of the Securities for the time being outstanding.

The agreement or approval of the Holders shall not be required in the case of any Benchmark Amendments required by the Issuer pursuant to Condition 5(i), or of any variation of these Conditions and/or the Trust Deed required to be made in the circumstances described in Condition 8 in connection with the substitution or variation of the terms of the Securities so that they remain or become Qualifying Securities, to which the Trustee has agreed pursuant to the relevant provisions of Condition 8.

An Extraordinary Resolution passed at any meeting of Holders will be binding on all Holders, whether or not they are present at the meeting.

The Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than 75 per cent. in principal amount of the Securities outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Holders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders.
The Trustee may agree, without the consent of the Holders, to (i) any modification of these Conditions or of any other provisions of the Trust Deed or the Paying Agency Agreement which is, in the opinion of the Trustee, of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification to (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach by the Issuer and/or the Guarantor of, any of these Conditions or of the provisions of the Trust Deed or the Paying Agency Agreement which is, in the opinion of the Trustee, not materially prejudicial to the interests of the Holders (which will not include, for the avoidance of doubt, any modification which would entitle the Holders to institute actions, steps or proceedings for the winding-up of the Issuer and/or the Guarantor in circumstances which are more extensive than those set out in Condition 12). In addition, the Trustee and the Principal Paying Agent shall be obliged to concur with the Issuer in effecting any Benchmark Amendments in the circumstances and as otherwise set out in Condition 5(i) without the consent or approval of the Holders. Any such modification, authorisation or waiver shall be binding on the Holders and such modification, authorisation or waiver shall be notified to the Holders in accordance with Condition 19, as soon as practicable.

If so requested by the Issuer, the Trustee shall, without the consent of the Holders, agree to the substitution, on a subordinated basis equivalent to that referred to in Conditions 2 and 3, in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Securities and the Trust Deed of another company, being a successor in business or a Holding Company (as defined in the Trust Deed) of the Issuer or a Subsidiary (as defined in the Trust Deed) of such Holding Company, (a “Substituted Obligor”) subject to (a) the Securities being unconditionally and irrevocably guaranteed by the Issuer, (b) certification to the Trustee by two directors of the Issuer that, in the opinion of the Issuer, the substitution will not be materially prejudicial to the interests of the Holders and will not have any adverse effect on the payment in a timely manner of all moneys payable under the Conditions and the Trust Deed, (c) confirmations being received by the Trustee from each rating agency which has, at the request of the Issuer, rated the Securities that the substitution will not adversely affect the then current rating of the Securities, (d) an opinion of independent legal advisers of recognised standing being provided to the Trustee as further described in the Trust Deed and (e) certain other conditions set out in the Trust Deed being complied with.

The Trustee may, without the consent of the Holders, agree with the Issuer to the substitution, on a subordinated basis equivalent to that referred to in Condition 2 and 3, in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Securities and the Trust Deed of a Substituted Obligor subject to (a) the Securities being unconditionally and irrevocably guaranteed by the Issuer, (b) the Trustee being satisfied that the interests of the Holders will not be materially prejudiced by the substitution and (c) certain other conditions set out in the Trust Deed being complied with.

In connection with the exercise of its trusts, powers, authorities and discretions (including but not limited to those referred to in this Condition 15), the Trustee shall have regard to the general interests of the Holders as a class but shall not have regard to the consequences of such exercise for individual Holders. In connection with any substitution or such exercise as aforesaid, no Holder shall be entitled to claim, whether from the Issuer, the Guarantor, the Substituted Obligor or the Trustee or any other person, any indemnification or payment in respect of any tax consequence of any such substitution or any such exercise upon any individual Holders, except to the extent already provided in Condition 13 and/or any undertaking given in addition thereto or in substitution therefor pursuant to the Trust Deed.

Any such substitution shall be binding on all Holders and shall be notified to the Holders in accordance with Condition 19 as soon as practicable thereafter.
16. **Replacement of the Securities**

If any Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Registrar or such other Paying Agent as may from time to time be designated by the Issuer for that purpose and notice of whose designation is given to Holders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security, indemnity and otherwise as the Issuer and the Principal Paying Agent may require. Mutilated or defaced Certificates must be surrendered before any replacement Certificates will be issued.

17. **Termination of Guarantee**

Notwithstanding any provision of these Conditions, the Trust Deed contains provisions which, for so long as BT Group plc remains the Guarantor, permit a termination of the Guarantee at the sole discretion of the Issuer or the Guarantor where:

(i) the Issuer or the Guarantor has issued a certificate to the Trustee signed by two directors of the Issuer or the Guarantor certifying that no Event of Default is continuing; and

(ii) a deed supplemental to the Trust Deed has been entered into discharging the Guarantor’s obligations as the guarantor under the Guarantee.

BT Group plc has undertaken in the Trust Deed to promptly notify Holders in accordance with Condition 19 of any such termination of the Guarantee.

18. **Indemnification of the Trustee**

The Trust Deed contains provisions for the indemnification or prefunding of, and/or provision of security for, the Trustee and for its relief from responsibility. The Trustee is entitled to enter into business transactions with the Issuer, the Guarantor or any of their respective subsidiary undertakings, parent undertakings, joint ventures or associated undertakings without accounting for any profit resulting from these transactions and to act as trustee for the holders of any other securities issued by the Issuer, the Guarantor or any of their respective subsidiary undertakings, parent undertakings, joint ventures or associated undertakings. The Trustee may rely without liability to Holders on a report, confirmation or certificate or any advice of any accountants, financial advisers, financial institution or any other expert, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or any other person or in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee may accept and shall be entitled to rely on any such report, confirmation or certificate or advice and such report, confirmation or certificate or advice shall be binding on the Issuer, the Guarantor, the Trustee and the Holders.

19. **Notices**

All notices to the Holders will be valid if mailed to them by first class mail or (if posted to an address overseas) by airmail to the Holders (or the first of any joint named Holders) at their respective addresses in the Register maintained by the Registrar. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Securities are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the fourth day after being so mailed or on the date of publication or, if published more than once, on the first date on which such publication is made.
20. **Further Issues**

The Issuer may from time to time without the consent of the Holders create and issue further securities ranking *pari passu* in all respects (or in all respects save for the date from which interest thereon accrues and the amount of the first payment of interest on such further securities) and so that such further issue shall be consolidated and form a single series with the outstanding Securities. Any such further securities shall be constituted by a deed supplemental to the Trust Deed.

21. **Agents**

The initial Agents and their initial specified offices are listed below. The Issuer reserves the right, subject to the approval of the Trustee, at any time to vary or terminate the appointment of any Agent and to appoint additional or other Agents, provided that the Issuer will:

(i) at all times maintain a Principal Paying Agent and a Registrar; and

(ii) at all times maintain a Paying Agent having its specified office in a major European city, which shall be London so long as the Securities are admitted to the Official List and admitted to trading on the London Stock Exchange’s Main Market.

Notice of any such termination or appointment and of any change in the specified offices of the Agents will be given to the Holders in accordance with Condition 19.

If the Principal Paying Agent is unable or unwilling to act as such or if it fails to make a determination or calculation or otherwise fails to perform its duties under these Conditions or the Paying Agency Agreement (as the case may be), the Issuer shall appoint, on terms acceptable to the Trustee, an independent financial institution acceptable to the Trustee to act as such in its place.

22. **Governing Law and Jurisdiction**

The Trust Deed and the Securities and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, the laws of England.

The courts of England have exclusive jurisdiction to settle any dispute (a “*Dispute*”), arising from or connected with the Trust Deed and the Securities and any non-contractual obligations arising out of or in connection with them.

Each of the Issuer and the Guarantor agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

Nothing in this Condition 22 prevents the Trustee or any Holder from taking proceedings relating to a Dispute (“*Proceedings*”) in any other courts with jurisdiction. To the extent allowed by law, the Trustee or Holders may take concurrent *Proceedings* in any number of jurisdictions.

23. **Contracts (Rights of Third Parties) Act 1999**

No person shall have any right to enforce any term or condition of the Securities by virtue of the Contracts (Rights of Third Parties) Act 1999.

24. **Definitions**

Terms defined in the Conditions have the same meaning in paragraphs 1 to 13 below.

13. Electronic consents and written resolutions

While the Global Certificate is registered in the name of any nominee for a clearing system, then:

(a) approval of a resolution proposed by the Issuer, the Guarantor or the Trustee (as the case may be) given by way of electronic consents communicated through the electronic communications systems of the relevant Clearing System(s) in accordance with their operating rules and procedures by or on behalf of the holders of not less than 75 per cent. in principal amount of the Securities outstanding (an “Electronic Consent”) shall, for all purposes, take effect as an Extraordinary Resolution passed at a meeting of Holders duly convened and held, and shall be binding on all Holders whether or not they participated in such Electronic Consent; and

HOW BT IS ORGANISED

BT has four customer-facing units: Consumer, Enterprise (bringing together Business and Public Sector and Wholesale and Ventures (reporting as a single unit from 1 October 2018)), Global and Openreach. They are supported by BT’s internal service unit: Technology, as well as Corporate Functions.

Enterprise, Consumer and Openreach operate mainly within the UK, selling products and services to consumers, businesses, central and local government organisations and other public sector bodies, as well as CPs. Global operates in the UK and globally, working for enterprise customers in more than 180 countries worldwide.

In the UK, BT supports CPs through Enterprise, and through Openreach, and globally through Global.

REGULATION

Communications and TV services are regulated by governmental and non-governmental bodies in the UK and around the world. In EU countries, electronic communications networks and services are governed by directives and regulations set by the European Commission (EC). These create a Europe-wide framework (known as the European Common Regulatory Framework) covering services such as fixed and mobile voice, broadband, cable and satellite transmission. The UK telecoms and broadcasting industries are regulated primarily by Ofcom (the UK’s independent regulator) within the framework set by the various European directives, the UK Communications Act 2003 and other UK and EU regulations and recommendations.

Overseas, the degree of regulation in international markets varies widely. This can hinder BT’s ability to compete and provide the services BT’s customers require.

USE AND ESTIMATED NET AMOUNT OF PROCEEDS

The estimated net proceeds of the issue of the Securities, after deduction of commissions, fees, and estimated expenses, will be €497,500,000 and the estimated net proceeds will be used for general corporate purposes.
TAXATION

The following is a general description of certain United Kingdom tax considerations relating to the Securities. It does not purport to be a complete analysis of all tax considerations relating to the Securities whether in that country or elsewhere. Prospective purchasers of Securities should consult their own tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of the United Kingdom of acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

1. UK TAX DISCLOSURE

The comments below, which apply only to persons who are beneficial owners of the Securities, concern only certain taxation obligations with respect to the Securities and are of a general nature based on current United Kingdom tax law as applied in England and Wales, and HM Revenue & Customs practice (which may not be binding on HM Revenue & Customs), and are not intended to be exhaustive. The comments below do not deal with any other transaction implications of acquiring, holding or disposing of the Securities. Any Holders who are in doubt as to their own tax position should consult their professional advisers.

Interest on the Securities

The Securities issued will constitute “quoted Eurobonds” within the meaning of section 987 of the UK Income Tax Act 2007 provided they are and continue to be listed on a “recognised stock exchange”, within the meaning of section 1005 Income Tax Act 2007. The London Stock Exchange is a recognised stock exchange for these purposes. Securities will be treated as listed on the London Stock Exchange if they are admitted to listing on the official list of the UK Listing Authority and to trading on the London Stock Exchange.

Whilst the Securities are and continue to be quoted Eurobonds, payments of interest by the Issuer on the Securities may be made without withholding or deduction for or on account of UK income tax.

In all other cases, an amount must generally be withheld on account of UK income tax at the basic rate (currently 20 per cent), subject to the availability of other reliefs or exceptions or to any direction to the contrary from HM Revenue & Customs under an applicable double taxation treaty. If any amount must be withheld by the Issuer on account of UK tax from payments of interest on the Securities then such Issuer will, subject to the provisions of Condition 13 (Taxation) of the Securities, pay such additional amounts as will result in the Holders receiving an amount equal to that which they would have received had no such withholding been required.

Interest on the Securities constitutes UK source income for UK tax purposes and, as such, may be subject to UK income tax by direct assessment even where paid without withholding. However, interest with a UK source received without deduction or withholding on account of UK tax will not be chargeable to UK tax in the hands of a Holder who is not resident for tax purposes in the UK unless that Holder carries on a trade, profession or vocation in the UK through a UK branch or agency or for holders who are companies through a UK permanent establishment, in connection with which the interest is received or to which the Securities are attributable. There are exemptions for interest received by certain categories of agent (such as some brokers and investment managers).

The provisions relating to additional amounts referred to in Condition 13 (Taxation) of the Securities would not apply if HM Revenue & Customs sought to assess the person entitled to the relevant interest or (where applicable) profit on any Security directly to UK income tax. However, exemption from or reduction of such UK tax liability might be available under an applicable double taxation treaty.
The Securities may in certain circumstances on occurrence of a Special Event be redeemed at 101 per cent. of their principal amount. Recently published HM Revenue & Customs guidance indicates that any premium payable in such circumstances might be treated as interest, in which case the position will be as for other interest payments made on the Securities (see above).

Depending on the correct legal analysis of any payments made by the Guarantor as a matter of UK tax law, it is possible that payments by the Guarantor would be subject to withholding on account of UK tax, subject to any applicable exemptions or reliefs (and noting that not all of the exemptions and reliefs set out above would necessarily be applicable).

**Stamp duty and stamp duty reserve tax**

No stamp duty or stamp duty reserve tax should be payable on issue of the Securities or on a transfer of the Securities.

II. **FTT**

**Proposed Financial Transaction Tax (“FTT”)**

On 14 February 2013, the European Commission published a proposal (the “European Commission’s Proposal”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “participating Member States”). However, Estonia has since stated it will not participate.

The European Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. The issuance and subscription of Securities should, however, be exempt.

Under the European Commission’s Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or deemed to be, established in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. In any event, the UK’s position has been that it will not be a participating Member State and, as the UK has left the European Union as a result of Brexit, it is no longer a Member State.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

13. Certain of the Bookrunners and their affiliates may have positions, deal or make markets in the Securities, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

swaps or the creation of short positions in securities, including potentially the Securities. Any such positions could adversely affect future trading prices of the Securities.
