Upcoming events
• On 2 February, BT will publish its Q3 FY23 results

BT Group – Environmental, Social and Governance
• On 5 October, BT announced a new programme with Cisco aimed at reducing business customers’ e-waste by recycling end-of-life equipment and help BT achieve its targets of a circular economy
• On 30 November, BT hosted a Manifesto ESG1 business briefing at BT’s headquarters featuring CEO Philip Jansen, Non-Executive Director Sara Weller and Corporate Affairs Director Ed Petter. The briefing set out BT’s ESG story and focused on the following messages:
  o BT is supporting customers, colleagues and families
  o BT is embedding the Manifesto across the Group including reward
  o BT is growing by connecting for good
• On 1 December, BT announced phase two of its Green Tech Innovation Platform
• On 13 December, BT was awarded an A rating from CDP for its climate disclosures for the seventh year running
• On 14 December, BT announced a range of resources available to help bring independence and digital skills to the older generation

1 Environmental, Social, Governance
**BT Group – Pay resolution with the CWU\(^2\) and Prospect**
- On 28 November, **BT announced plans for a UK Cost of Living Pay Rise of £1,500** from 1 January 2023 for those colleagues who earn £50,000 or less. BT will move its 2023 pay review for UK colleagues to September 2023 and take into account the January Cost of Living Pay Rise.
- On 12 December, Prospect announced its members voted in favour of the Cost of Living Pay Rise.
- On 15 December, the CWU announced 81% of its members voted in favour of the Cost of Living Pay Rise, bringing an end to industrial action.

**BT Group – BT\(^3\)P S\(^4\) publishes Annual Report for the year ended 30 June 2022**
- On 18 October, BT\(^3\)P S\(^4\) published its annual report for the year ended 30 June 2022. BT\(^3\)P S\(^4\) CEO Morten Nilsson commented ‘our hedges have performed as expected, and whilst the value of the scheme’s assets has fallen over this period, there has been no worsening in our estimated funding position’.

**BT Group – BT announces combination of Enterprise and Global to create BT Business**
- On 16 December, BT announced it will be combining its Global and Enterprise divisions into a single B2B\(^4\) unit, BT Business from 1 April 2023. The combination will drive gross annualised cost savings of at least £100m by FY25. BT Business will be led by current Global CEO, Bas Burger.

**Government – Government issues Designated Vendor Direction in relation to Huawei**
- On 13 October, the Government issued a Designated Vendor Direction to 35 telcos in relation to Huawei, that must be removed from the UK’s 5G public networks by end 2027. The direction sets out a number of controls including removal of Huawei equipment from the network core by 31 December 2023, an 11-month extension from the previous deadline of 28 January 2023.

**Regulation – Ofcom publishes its quarterly telecoms and pay TV complaints**
- On 18 October, Ofcom published its Q2 2022 telecoms and pay-TV complaints data:
  - The BT brand was below the industry average for number of broadband and landline complaints and above average for mobile and pay-TV.
  - The EE brand was below average for number of broadband, landline and mobile complaints.

**Regulation – Net neutrality**
- On 21 October, [Ofcom published its net neutrality review consultation](#).
- On 21 October, Consumer CEO Marc Allera published a blog on Ofcom’s consultation commenting ‘new models are required to maintain the levels of quality and experience that all customers should expect’.

**Regulation – Ofcom investigates transparency of telecoms price rises**
- On 1 December, Ofcom launched an industry-wide enforcement programme into whether in-contract price rises were set out clearly enough by phone and broadband companies before customers signed up.

**Regulation – Ofcom publishes its future approach to mobile markets and spectrum**
- On 6 December, Ofcom published its conclusions on the future of mobile markets and spectrum. Ofcom outlined it will step up its work to monitor how well mobile markets are functioning, outcomes are being delivered and risks to those outcomes. It stated it is taking steps to clarify its future regulatory approach to markets and the allocation of spectrum and will continue its work to develop better information on network quality.
