

Key Performance Indicators (KPIs)

For the financial years ended 31 March 2021 and 31 March 2022, and the quarters ended 30 June 2022 and 30 September 2022.

From Q1 FY21, BT has been reporting information in the format of this document as part of its quarterly financial disclosures. **These financial statements do not constitute statutory accounts within the meaning of Section 434 of the Companies Act 2006 and have not been audited or reviewed by the independent auditors.**

Notes

KPIs are presented on a pro forma basis to reflect the BT Sport JV transaction. For further information on pro forma disclosure, we published a press release and accompanying documents on 18 October 2022 including a basis of preparation which can be found on our website - www.bt.com/about/investors/financial-reporting-and-news/results-events-and-financial-calendar/2022-23#bt-sport-jv.

Revenue categories described as 'Of which' are intended to provide greater detail about the components of larger revenue categories, but are not intended to be the sum of that category.

Please see the Glossary pages at the end of this document for details about the metrics included.

Disclaimer

All pro forma financial information contained in this document is unaudited. The pro forma results are presented to investors and analysts as an indication of trend only. The financial statements do not constitute statutory accounts within the meaning of Section 434 of the Companies Act 2006 and have not been audited by BT Group's independent auditors. BT Group does not warrant the accuracy, completeness or validity of the information, figures or calculations in this document and shall not be liable in any way for any loss or damage arising out of the use of this information, or any errors or omissions in its content.

About BT Group

BT Group is the UK's leading provider of fixed and mobile telecommunications and related secure digital products, solutions and services. We also provide managed telecommunications, security and network and IT infrastructure services to customers across 180 countries.

BT Group consists of four customer-facing units: Consumer serves individuals and families in the UK; Enterprise and Global are our UK and international business-focused units respectively; Openreach is an independently governed, wholly owned subsidiary, which wholesales fixed access infrastructure services to its customers - over 650 communication providers across the UK.

For the year ended 31 March 2022, BT Group's reported revenue was £20,845m with reported profit before taxation of £1,963m.

British Telecommunications plc is a wholly-owned subsidiary of BT Group plc and encompasses virtually all businesses and assets of the BT Group. BT Group plc is listed on the London Stock Exchange.

¹ From Q3 FY22, now includes previously excluded broadband only customers. Prior to Q3 FY22 the quantum of these customers was immaterial

² Q2 FY21 restated in Q3 FY21 following review to include previously excluded ultrafast connections

³ Q3 FY21 5G ready base restated in Q4 FY21 to also include 5G SIM-Only customers

⁴ From Q3 FY22 reflects improved customer address data, resulting in a c.0.02ppts decrease in the total

Glossary

GROUP: COSTS

Operating costs	
Direct labour costs	Total gross costs associated with wages and salaries, social security costs, pension costs, employee profit share and share based payments.
Indirect labour costs	Labour costs that relate to agency and subcontracted employees.
Leaver costs	Also called 'Termination benefits'. Costs payable when, in the normal course of business, employment is terminated before an employee's normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to the affected employees leaving the Group. Leavers costs related to a major restructuring programme are treated as a specific item (defined below).
Capitalised labour	Labour costs associated with the construction, modification, or installation of capital expenditure programmes (defined below).
Product costs and sales commissions	Costs incurred in the creation of products, including the purchase of equipment and services for resale, and commission paid to third parties for selling the Group's products and services.
Payments to telecommunications operators	Costs typically including payments to other communications providers (CPs) when terminating voice traffic on their networks to carry a call to the customer receiving the call. Also called 'payments to other licensed operators' (POLOs).
TV programme rights charges	Costs incurred as a result of providing JV content to BT Sport bundled customers. Previously included the cost of TV programme rights, mainly relating to sport (particularly football) broadcast rights.
Provision and Installation	Costs incurred in providing the products and network services to customers. Includes the cost of installation, equipment stock level changes and valuation adjustments, and equipment consumed by the Group for its own use.
Marketing & sales	Costs incurred for publicising and presenting products and services to customers, and to secure potential orders for products and services.
Other operating costs	Costs not included in any other category, such as those relating to travel and subsistence, transport, consultancy and bad debts.
Other operating income	Income that the Group generates from activities outside the provision of communication services and equipment sales. Includes income from repayment works, profits and losses on the disposals of businesses, property, plant and equipment.
Specific items	Costs separately disclosed to improve the relevance of other costs to understanding the Group's financial performance. Specific items are identified by virtue of their size, nature or incidence with management considering quantitative as well as qualitative factors such as the frequency or predictability of occurrence. Examples include acquisitions/disposals of businesses and investments, regulatory settlements, historical insurance or litigation claims, business restructuring programmes, asset impairment charges, property rationalisation programmes, net interest on pensions and the settlement of multiple tax years.

Reported capital expenditure	
Of which capacity/network	Investment in our integrated network to improve the coverage and reliability of our superfast broadband network, increase the deployment of ultrafast broadband, enhance and expand our mobile network, and deliver a truly integrated network that supports converged products/services. Includes Broadband Delivery UK (BDUK) grant funding deferrals.
Of which customer driven	Investment that directly generates revenue from continued development of customer contract-specific infrastructure for our UK and global clients, deployment of Ethernet and broadband connections for homes and businesses, including reduction of the existing workstacks.
Of which systems/IT	Investments in systems and information technology to develop differentiated customer experiences, new products and services, or transformation initiatives to drive cost savings.
Of which non-network Infrastructure	Investment that covers, for example, investment in our property estate, power and cooling investments to drive energy savings, specialist vehicle replacement.

Roles	
Full-time equivalent	The number of full time equivalent (FTE) roles at the end of the period, directly employed by the company rather than by agencies or subcontractors.

UNITS

General terms	
YoY	An abbreviation of 'year on year' i.e. the change compared to the equivalent period in the previous year.

Financial	
Internal revenue	Intra-group revenue generated from the sale of regulated products and services, based on market price. Intra-group revenue from the sale of other products and services is agreed between the relevant customer-facing units (CFUs) and therefore CFU profitability may be impacted by transfer pricing levels.
Reported capex	Capital expenditure recorded in accounts but for which cash has not necessarily yet been paid.
Normalised free cash flow	The net increase in cash and cash equivalents less: cash flows from financing activities (except net interest paid); the acquisition/disposal of group undertakings and the net sale of short-term investments, and excluding the cash impact of specific items; purchases of telecommunications licences; and the cash tax benefit of pension deficit payments. Non-tax related adjustments are made on a pre-tax basis.

Glossary

CONSUMER	
Revenue	
Fixed	Earned from products/services delivered using only fixed network connectivity, including broadband, calls, line rental, TV, and residential BT Sport subscriptions.
Of which broadband	Earned from products/services delivered using only fixed network connectivity, including broadband, calls, line rental, TV, and residential BT Sport subscriptions, but excludes revenue earned from customers only taking fixed voice product.
Mobile	Earned from products/services delivered using only mobile network connectivity, including data connectivity, incoming and outgoing calls and roaming by customers of overseas networks.
Of which postpaid mobile	Earned from customers paying monthly subscriptions for mobile network connectivity.
Equipment	Earned from mobile and fixed equipment sales, such as mobile handsets or TV set top boxes.
Other	Earned from leased fixed customer equipment, value added and Wi-fi services.
Of which internal	Mainly BT Wi-fi revenue from services sold by Global on certain contracts, and services and applications sold by Plusnet to Global.
Operational	
Broadband average revenue per customer	Broadband revenue (defined above) during the period divided by the average number of broadband customers during the period, and presented as a monthly amount.
Fixed average revenue per customer	Fixed revenue (defined above) during the period divided by the average number of line rental customers during the period, and presented as a monthly amount.
Postpaid mobile average revenue per customer	Postpaid mobile revenue (defined above) during the period divided by the average number of postpaid mobile customers during the period, and presented as a monthly amount.
Prepaid mobile average revenue per customer	Prepaid mobile revenue (not disclosed but earned from customers pre-paying for mobile connectivity) during the period divided by the average number of prepaid mobile customers during the period, and presented as a monthly amount. Prepaid customers at any point in time are counted as those which have used their connection during the preceding 30 days.
Fixed monthly churn	Number of line rental customers who disconnect from the network, voluntarily or involuntarily, during the period – excluding those who join another BT group brand, divided by the average number of line rental customers during the period, presented as a monthly figure.
Broadband monthly churn	Number of fixed broadband customers who disconnect from the network, voluntarily or involuntarily, during the period – excluding those who join another BT group brand, divided by the average number of broadband customers during the period, presented as a monthly figure.
Postpaid mobile monthly churn	Number of postpaid mobile customers who disconnect from the network, voluntarily or involuntarily (excluding money-back return, fraudulent connections and inter-brand migrations) during the period, divided by the average number of postpaid customers during the period, presented as a monthly figure.
Superfast fibre share of broadband base	The proportion of broadband lines purchasing a superfast connection i.e. with a maximum download speed of up to 76Mbps. These connections are supplied to customers by Consumer purchasing an FTTC/FTTP wholesale product from Openreach.
Ultrafast fibre share of broadband base	The proportion of broadband lines purchasing a ultrafast connection i.e. with a maximum download speed above 100Mbps. These connections are supplied to customers by Consumer purchasing a Gfast/FTTP wholesale product from Openreach.
FTTP connections	The number of customers taking a fibre-to-the-premises broadband plan.
5G ready connections	The number of EE consumer customers receiving or capable of receiving 5G network connection from a 5G enabled SIM.
Fixed and mobile convergence	Total households served by Consumer which have both a BT Group (any brand) fixed broadband and PAYM mobile connection present divided by total number of Consumer households (i.e. taking at least PAYM or fixed line rental).
Revenue Generating Units per address	Number of chargeable products, per separate address measured across the BT, EE and Plusnet brands, aggregated to give a total for the Consumer CFU.

Glossary

ENTERPRISE

Revenue	
Fixed	Earned from products/services across our brands that use only fixed network connectivity.
Of which voice	Earned from products/services that provide our customers with voice connectivity.
Of which broadband	Earned from products/services that provide our customers with broadband internet connectivity.
Of which WAN and Ethernet	Earned from products/services that provide our customers Wide Area Network (WAN) connectivity i.e. network connections linking a number of sites, including BT Net sales, and Ethernet connectivity, i.e. a dedicated high bandwidth connection.
Mobile	Earned from products/services across our brands that use only our mobile network connectivity.
Of which retail mobile	Earned from products/services sold to retail customers for mobile network connectivity.
Of which wholesale mobile	Earned from products/services predominantly sold to Mobile Virtual Network Operators (MVNOs) for mobile network connectivity which they use to provide products/services to their end customers. Includes mobile data analytics, and M2M (i.e. IoT).
Managed services	Earned from bespoke contracts that is not directly apportioned to either fixed or mobile connectivity, including that from the Emergency Services Network (ESN).
Republic of Ireland	All revenue of any type earned from customers in the Republic of Ireland, received in euros but reported in sterling.
Other	Any revenue not included within any of the above categories, e.g. revenue from converged products/services
Of which Internal	Contains internal charges to other parts of BT. Mainly revenue arising from Consumer for mobile Ethernet access and BT Technology unit for transmission planning services, but may include other internal revenue.

Revenue by channel	
Retail (ex RoI)	Revenue from corporations and small/medium enterprises (SMEs) that are UK focused, including from the Public Sector, from products under the BT and EE brands, including, but not exclusively, calls, lines, broadband, mobile, ICT, and managed network services.
Wholesale	Revenue from Wholesale products/services, sold to communications providers (CPs) which use them to provide products/services to their end customers.

Orders	
Total retail orders	Retail orders of products and services sold in the period to the unit's customers in Great Britain, Northern Ireland, and the Republic of Ireland, including all one-off charges and all recurring charges expected over the term of the contract. Orders are recorded on a sales order value (SOV) basis, i.e. the total amount of revenue expected from the contact over its life.
Of which new business	The amount of revenue expected to be earned over the life of a contract for new business contracts signed in the period e.g. a new 5-year contract worth £10m a year equates to a SOV of £50m.
Of which renewals	The amount of revenue expected to be earned over the life of a contract recorded on the renewal or extension of an existing contract with a current customer in the period.
Total wholesale orders (excluding IoT)	Wholesale orders in the period, sold to communications providers (CPs), for all business types including new business, growth, renewals and extensions. Where a renewal or extension overlaps with a previous contract value reported as Order intake, only the incremental contract value (ICV) increase is included. This includes all one-off charges, plus all recurring charges for the term of the contract. Wholesale orders only relate to orders that have been contracted for future periods.

Operational	
Voice lines	The total number of revenue-generating voice connections on our fixed network, across all external customers, measured at the end of the period. The revenue generated by these connections is included within 'Fixed of which voice' revenue.
Of which traditional voice lines	The total number of revenue-generating voice connections on our fixed network that use legacy analogue technology, across all external customers, measured at the end of the period. The revenue generated by these connections is included within 'Fixed of which voice' revenue.
Of which VoIP seats	The total number of revenue-generating voice connections on our fixed network that use Voice over Internet Protocol (VoIP) technology, across all external customers, measured at the end of the period. The revenue generated by these connections is included within 'Fixed of which voice' revenue.
Call minutes (millions)	The number of calling minutes used during the period by all external customers. The revenue earned by these connections is included within 'Fixed of which voice' revenue.
Of which retail call minutes (millions)	The number of calling minutes used during the period by external retail customers. The revenue earned by these connections is included within 'Fixed of which voice' revenue.
Of which wholesale call minutes (millions)	The number of calling minutes used during the period by external wholesale customers (communications providers (CPs)) using the Wholesale Calls product. The revenue earned by these connections is included within 'Fixed of which voice' revenue.
External broadband lines	The closing base of broadband live circuits (including copper & fibre) sold to external customers on our fixed network. The revenue generated by these connections is included within 'Fixed – Broadband' revenue.
Of which retail broadband lines	The closing base of broadband live circuits (including copper & fibre) sold to external retail customers on our fixed network. The revenue generated by these connections is included within 'Fixed – Broadband' revenue.
Of which wholesale broadband lines	The closing base of broadband live circuits (including copper & fibre) sold to external wholesale customers (communications providers (CPs)) on our fixed networks. The revenue earned by these connections is included within 'Fixed – Broadband' revenue.
WAN and Ethernet	The closing base of data circuits excluding broadband lines sold to all external customers. The revenue generated by these networks is included within 'Fixed of which WAN and Ethernet' revenue.
Of which wholesale Ethernet circuits	The closing base of Ethernet circuits sold to external wholesale customers (communications providers (CPs)) that are not Mobile Network Operators (MNOs). The revenue earned by these connections is included within 'Fixed of which WAN and Ethernet' revenue.
Of which WAN circuits	The closing base of active circuit connections on Wide Area Networks (WAN), including BT Net products, across all external customers. The revenue generated by these networks is included within 'Fixed of which WAN and Ethernet' revenue.
Mobile customers	The total number of revenue-generating connections on our mobile network, across external retail customers and all our brands, measured at the end of the period. The revenue generated by these connections is mainly included within 'Mobile - Retail mobile' revenue, with the remainder generated from BT One Phone reported in Other.
MVNO customers	The closing base of subscribers (reported a quarter in arrears) on our mobile network through mobile virtual network operators (MVNO) purchasing access from Enterprise. The revenue generated by these connections is included within 'Mobile - Wholesale mobile' revenue.
Superfast fibre share of broadband base	The proportion of measurable broadband lines (>90% of the figure defined above) purchasing a superfast connection i.e. with a maximum download speed of up to 76Mbps. These connections are supplied to external customers by Enterprise purchasing an FTTC/FTTP wholesale product from Openreach.
Ultrafast fibre share of broadband base	The proportion of measurable broadband lines (>90% of the figure defined above) purchasing an ultrafast connection i.e. with a maximum download speed above 100Mbps. These connections are supplied to external customers by Enterprise purchasing a Gfast/FTTP wholesale product from Openreach.

Glossary

GLOBAL	
Revenue by industry segmentation	
Banking and Financial Services	Revenue from customers in the following industries: UK and International retail banking; insurance, wealth management and financial services; and wholesale banking and payments. Includes Radianz and Unified Trading products.
Resources, Manufacturing and Logistics	Revenue from customers in the following industries: manufacturing; retail and consumer goods; natural resources and utilities; and transport, logistics and automotive.
Technology, Life Sciences and Business Services	Revenue from customers in the following industries: healthcare and life services; media and technology; business services and international government; systems integration; telecommunications including our Global Wholesale Voice business; and Public Sector.
Regional Enterprise	Revenue from regional enterprise customers outside the UK.
Revenue by product group	
Growth	Revenue from recently launched technologies and high growth strategic products, including: Security; Cloud-based solutions; and software-defined capabilities.
Mature	Revenue from products which use well-established technologies, for which new alternatives are starting to emerge, including: MPLS services; and on-premise IP voice.
Legacy	Revenue from products that are approaching end-of-life or that have been strategically deprioritised, and which do not attract new customer sales, including: public switched telephony network (PSTN) services; and private leased lines.
Orders	
Orders	Orders for all business types including new business, growth, renewals and extensions. Measured on an incremental contract value (ICV) basis, such that if a contract renewal or extension overlaps with a previous contract value reported as Order intake, only the incremental increase is included.
OPENREACH	
Fixed access network technologies	
Wholesale Line Rental (WLR)	Openreach's copper access product, predominantly used for delivering voice services.
Local Loop Unbundling (LLU)	Enables communications providers (CPs) to offer the full range of voice and broadband services.
Single Order Transitional Access Product (SOTAP)	A copper path between the end customer's premises and the CP's exchange infrastructure, enabling CPs to offer broadband and Internet Protocol (IP) voice services.
Fibre to the Cabinet (FTTC)	The supply of data services over a fibre optic cable running between the local exchange and the local street cabinet, then using existing copper cable to deliver the data to the end customer's premises. In FTTC, the device which translates the data into a signal that can be carried over copper wire, the DSLAM, sits in a local street cabinet, rather than in the local exchange. For FTTC Single Order GEA (SOGEA), voice services are also carried over the fibre optic cable between the exchange and cabinet.
Gfast	The supply of data services by building on existing FTTC infrastructure to change the way broadband signals are transmitted to achieve ultrafast bandwidths without the need to install fibre all the way to a property. For Single Order Gfast (SOGfast), voice services are also carried over the fibre optic cable between the exchange and cabinet.
Fibre to the Premises (FTTP)	The supply of data services over a fibre optic cable running between the local exchange and the end customer's premises. This technology completely replaces the need for copper cabling within the Openreach network.
Ethernet	Fibre circuits offering end users network transport solutions including point-to-point connectivity between sites, backhaul of data traffic from unbundled exchanges and mobile base stations into the CP's own network, or to build data networks across the UK.
Revenue	
Wholesale Line Rental (WLR)	Internal and external WLR connection and rental revenue.
Local Loop Unbundling (LLU)	Internal and external shared metallic path facility (SMPF) and metallic path facility (MPF) connection and rental revenue, co-location connection and rental revenue, copper port build, tie cables, and test access matrices (TAM).
Single Order Transitional Access Product (SOTAP)	Internal and external SOTAP connection and rental revenue.
Superfast	Internal and external Fibre to the Cabinet (FTTC) connection and rental revenue. This includes both FTTC GEA (Generic Ethernet Access) and FTTC Single Order GEA (SOGEA).
Ultrafast	Internal and external Fibre to the Premises (FTTP) and Gfast connection and rental revenue. This includes both Gfast GEA (Generic Ethernet Access) and Single Order Gfast GEA (SOGfast).
Ethernet	Internal and external Ethernet connection and rental revenue.
Other	Primarily revenue from service-based activity and some legacy connectivity products.
Of which internal	Primarily rental and connection revenue related to WLR, SMPF, Ethernet and fibre supplied to BT's other customer-facing units.
Operational	
Network deployment: Superfast	All premises in the UK that are able to place an order to access superfast fibre broadband speeds of >30Mbps delivered using FTTC, Gfast, or FTTP technology (subject to CP readiness).
Network deployment: Ultrafast Gfast	All premises in the UK that are able to place an order to access ultrafast fibre broadband speeds of >120Mbps delivered using Gfast technology (subject to CP readiness). Prior to Q1 FY20 the relevant broadband speed was >100Mbps.
Network deployment: Ultrafast FTTP	All premises in the UK that are able to place an order to access ultrafast fibre broadband speeds of >100Mbps delivered using FTTP technology (subject to CP readiness).
Physical lines	Internal and external bearers in the UK at the end of the reporting period for various products as defined above, with the following exceptions: 'Physical lines - Of which WLR' also includes WLR+SMPF lines, in addition to WLR-only lines 'Physical lines - Of which LLU' is MPF lines, does not include SMPF lines.
Total broadband connections	Total internal and external broadband connections in the UK at the end of the reporting period.
Of which non-fibre	Internal and external broadband connections in the UK delivered using non-fibre products (ie SMPF or MPF) at the end of the reporting period.
Of which FTTC	Internal and external broadband connections in the UK delivered using FTTC products at the end of the reporting period. For FTTC GEA, the connection is only counted once as the non-fibre component of the broadband connection is excluded from the 'Of which non-fibre' count.
Of which Gfast	Internal and external broadband connections in the UK delivered using Gfast products at the end of the reporting period. For Gfast GEA, the connection is only counted once as the non-fibre component of the broadband connection is excluded from the 'Of which non-fibre' count.
Of which FTTP	Internal and external broadband connections in the UK delivered using FTTP products at the end of the reporting period. The connection is only counted once because if a non-fibre component is used, it is excluded from the 'Of which non-fibre' count.
Ethernet	Total internal and external connections in the UK for Ethernet products at the end of the reporting period.
Reported capital expenditure excluding spectrum	
WLR, LLU, FTTC & Gfast (including single order variants)	Investment in our copper-based fixed access network to improve the coverage and reliability of our network, and to connect homes and businesses to our network. Includes investment in passive infrastructure, for example in duct and pole networks, built primarily to support our copper-based network.
FTTP	Investment in our FTTP network to improve the coverage of our ultrafast, ultra-reliable FTTP broadband network, and connect homes and businesses to our network. Includes investment in passive infrastructure, for example in duct and pole networks, built primarily to support our FTTP network.
Ethernet	Investment in our Ethernet fixed access network, primarily customer-driven deployment. Includes investment in passive infrastructure, for example in duct and pole networks, built primarily to support our Ethernet network.
Other	Investment that covers systems and information technology, passive infrastructure built for other network providers, maintenance of existing passive infrastructure and tools used in improving coverage and reliability of our networks.
