*The share price quoted in the final column is indicative of the potential gain (or loss) compared with the original share price; it does not necessarily reflect any sale price for the shares obtained.

The following chart shows the history of the BT saveshare Schemes from 1985 - 2000.

NB Options granted in 1998, 1999 and 2000 became exercisable early as a result of BT's restructuring in 2001. In the event, the share price was lower than the option price during the exercise period shown so no options were exercised.
