Accordingly, no assurance can be given that any particular expectation will be met and readers are cautioned not to place undue reliance on forward looking statements, which speak only at their respective dates. Additionally, forward looking statements regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. Other than in accordance with its legal or regulatory obligations (including under the UK Listing Rules and the Disclosure Guidance and Transparency Rules of the Financial Conduct Authority), the Company undertakes no obligation to publicly update or revise any forward looking statement, whether as a result of new information, future events or otherwise. Nothing in this announcement shall exclude any liability under applicable laws that cannot be excluded in accordance with such laws.

BT Group Manifesto: Our ESG strategy in action

Our Manifesto is overseen by the Responsible Business Committee (a Board sub-committee)

Highlights for FY24

- We're making good progress on the BT Group Manifesto - our commitment to **accelerating growth through technology that's responsible, inclusive and sustainable**
- **We've cut our carbon emissions intensity by 61%, against our target to deliver an 87% cut by March 2031 (compared to 2017 levels).¹**
- **We've now helped 23 million people improve their digital skills since FY15 – reaching 3.7 million people in the last year. We're on track to reach 25 million by March 2026.**

Responsible

New tech must earn people's trust and transform lives for the better

- We published our approach to **children's digital rights**. The **2023 Global Child Forum Benchmark Report** rated BT Group as one of Europe's top performing companies and as a **global leader in the telecoms sector**
- We launched a **'worker's voice' pilot** in five supplier factories, to understand the experience of people working in our supply chain
- We continued to conduct **due diligence** on our direct tier 1 manufacturing supply chain
- We published an **AI standard** for colleagues to ensure our use, development, purchase and sale of AI is consistent with our responsible tech principles
- We enhanced our **sales due diligence** in Business, helping us assess any **potential human rights risks** through the life of a customer's contract.

Inclusive

The future of tech must be inclusive and diverse for everyone to benefit

- We're making progress in **ethnic minority** representation, but have more to do to build a **truly equitable and inclusive culture** across BT Group
- Our **EE Hope United** campaign helped **3.5 million people** with digital skills to help tackle online hate
- In partnership with **AbilityNet**, we've helped around **3,000** digitally-excluded over-65s build their confidence and develop digital skills
- We helped over **200,000 small business** owners and their employees with free digital skills support this year, reaching over one million in total since FY15
- We continue to support around **one million** low income and vulnerable customers with discounted broadband and calls
- With **Home-Start UK**, we supported socially excluded households with gift in-kind contributions, fund-raising and donations totalling £134,000 this year.

Sustainable

Tech must accelerate the journey to net zero emissions and a circular world

- **We cut our carbon emissions intensity by 61%¹** - adding more than 1,700 electric vehicles (EVs) this year (over 4,100 in our commercial fleet in total). We also launched a pilot to provide **EV charging points** through **our street cabinets**
- We've **reduced our supply chain emissions by 25%** since FY17 against a 42% reduction target by 2031
- We launched a campaign asking our suppliers to **set science-based targets**, and to report on progress annually
- To support our goal to enable a circular economy², we've collected nearly **2.6m electronics devices** through our various trade-in and take-back schemes
- This year, we helped our **customers avoid more than 1.5m tonnes of carbon emissions** (3.8m tonnes since 2021) through technologies including full fibre broadband, mobile solutions and cloud computing
- We remained on **CDP's A list** for our climate disclosures, and achieved an 'Advanced' score with EcoVadis.

¹ Scope 1 and 2 greenhouse gases per unit of gross value added.

² We want to become a circular business by March 2030 and build towards a circular tech ecosystem by March 2040.
