

Your BT3520 is now ready for use.

If you ever need to remove the batteries, simply slide open the battery compartment cover and using the finger grip the batteries and pull them out.

- Place the handset on the charger to charge for 24 hours. Remove the protective film from the handset screen and activate the batteries as shown above.
- For each additional handset and charger: plug the mains power adaptor (item code 066771) into the socket on the back of the charger, secure the cable behind the retaining clip and plug the other end into the mains wall socket and switch the power on.

Set up your additional handsets (multi-packs only)

Important: Charge the handset batteries for 24 hours or your phone may not work.

- Remove the protective film from the handset screen and the base lens and activate the batteries by pulling the plastic tab away from the back of the handset.
- Place the handset on the base to charge.
- After 24 hours, plug the telephone line cord into the telephone wall socket.

General information

For information on safety instructions, cleaning, technical information or connecting to a switchboard, please refer to the 'General Information' section in the full user guide at bt.com/producthelp

Guarantee

Your BT3520 is guaranteed for a period of 12 months from the date of purchase.

Subject to the terms listed below, the guarantee will provide for the repair of, or at BT's or its agent's discretion the option to replace the BT3520, or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

The conditions of this guarantee are:

- The guarantee shall only apply to defects that occur within the 12 month guarantee period.
- Proof of purchase is required.
- The equipment is returned to BT or its agent as instructed.

This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents.

This guarantee does not affect your statutory rights.

To find out what to do, if your phone is in or outside of the 12 month guarantee, please look in the full user guide at bt.com/producthelp

How to recycle your equipment

The symbol shown here and on the product means that the product is classed as electrical or electronic equipment, so DO NOT put it in your normal rubbish bin.

It's all part of the Waste Electrical and Electronic Equipment (WEEE) Directive to recycle products in the best way – to be kinder to the planet, get rid of dangerous things more safely and bury less rubbish in the ground.

You should contact your retailer or supplier for advice on how to dispose of this product in an environmentally friendly way.

Warning

You won't be able to call 999 from this phone if there's a power cut, so make sure you've got another way to call for help in an emergency.

R&TTE Directive & Declaration of Conformity

This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

This equipment complies with the essential requirements for the Radio Equipment and Telecommunications Terminal Equipment Directive (1999/5/EC).

For a copy of the Declaration of Conformity please refer to bt.com/producthelp

For a Better Future

We're always looking to make our products last longer and use less power, so we don't have such a big impact on the environment.

Press or to select the number of rings before the answer machine answers: 2-9 rings or time saver and press .

For detailed instructions on all the answering machine features see the full user guide online at bt.com/producthelp

Help

Most problems can be fixed with a few simple checks.

Problem	Solution
No dial tone	Only use the cables and batteries supplied. Make sure both the mains power adaptor cable and telephone line cord are plugged into the correct sockets.
Poor speech quality	Make sure the product is not located too close to other electrical appliances. This can also help improve the handset range from the base.
Battery icon flashing and scrolling digits	The battery charge is very low. Make sure you charge the batteries for 24 hours before use to ensure maximum battery performance.
Using broadband on the same phone line?	Make sure you plug the phone into the wall socket via an ADSL microfilter (not supplied), otherwise you may have problems with this product and your broadband service. ADSL microfilter If you use BT Infinity, you will not need to use an ADSL microfilter. For other types of broadband, please check with your provider if a microfilter is required.
Answer machine not answering calls	Check the answer machine is on and set to Answer & Record. Also check that the ring delay is set to answer before any voicemail service (e.g. 1571) on the line.
